## IN THE BEE TO-DAY

WEATHER PREDICTIONS.

Indiana and Illinois—Increasing cloudiness, probably followed by showers, clearing during Saturday; southerly winds, shifting to westerly.

For lower Michigan—Fair to-day, local showers Saturday; southerly winds, warmer in eastern portion.

For upper Michigan and Wisconsin—Light snow or rain; southeasterly winds; slight changes in temperature.

For Ohio—Warmer, fair, followed by cloudy, threatening weather on Saturday.

U. S. Department of Agriculture,
Weather Bureau,
Toledo, March 25, 1892.
Weather Conditions.

Generally cloudy weather prevails over the Mississippi and Missouri valleys, with rising temperature. The "high" which was central over southern Ohio yesterday has moved to the Atlantic coast. The area of low pressure in the northwest has moved southeastward, and is to-day central over North Dakota, and an average temperature of 36 degrees prevails throughout the northwest.

This storm center will probably move eastward to-day, causing increased cloudiness and rain in the lake region. Very little precipitation is reported for the past 24 hours, the greatest amount being 1.12 inches at Charleston.

# A WAR SECRET.

## Miguel Lopez Was Not a Traitor.

## He Was Loyal to His Leader, Maximillian,

## And Only Spoke for the Doomed Prince.

## General Escabedo Tells of the Affair.

### History Has Done a Brave Man a Wrong and Made False Heroes at the Surrender of Queretaro.

San Antonio, Tex., March 25.—General Marino Escabedo, the greatest of the living Mexican generals, who was commander-in-chief of the national army during the French invasion and during Maximilian's short and stormy term, has arrived here.

He is now living in retirement on his hacienda in Guanajuata, Mexico. It has been charged, and so stated in history, that the fall of Queretaro was due to treachery on the part of Miguel Lopez of Maximilian's staff, who was generally supposed to have delivered up the strong place for a traitor's reward.

In an interview Gen. Escabedo Cleared up that error. He said:

"For a long term of years my mouth has been sealed by a promise which I held safe, but the discovery of authentic letters from Maximilian has revealed the truth, through no agency of mine, and released me accidentally from the pledge I had taken as the last favor on earth to a doomed prince.

"Miguel Lopez was a secret emissary of Maximilian. He was sent to me at the dead of night and in the deepest secrecy to propose in Maximilian's name, the surrender of Queretaro, providing he, the emperor, was allowed to flee the country in safety.

"This I could not and would not grant, and demanded an unconditional surrender. Miguel Lopez then told me, in Maximilian's name, that the surrender of Queretaro would be made on the morrow, but asked me, in Maximilian's name and as a last and single favor to the fated prince, never to reveal the proposition made by Maximilian to surrender his army in exchange for his freedom and to thus save his name from the infamy which would inevitably attach to it if his treasonable intent were known to the world.

This is how it chanced that Col. Lopez has borne in silence many years the brand of infamy as the last act of heroic devotion to the memory of Maximilian."

Gen. Escabedo was here with reference to the case of Col. Nieves Hernandez, who is now in prison at the capital under sentence of death, passed by the court-martial at Monterey, before which he was tried, on the charge of aiding Garza in his revolutionary movement.

Gen. Escabelo said that he did not believe the sentence would be confirmed by the supreme military court to which the case had been appealed. In any event Hernandez would be pardoned by President Diaz.

Gen Escabedo entertained no doubt of Diaz's re-election, saying the people were much more engrossed in the material development of the country than in following the fortunes of any petty aspirant for the presidency.

Speaking of the proposed return of the flags captured by the American army in Mexico the general dismissed the subject by recalling that the Mexicans still had some cannon and flags captured from the Americans. He didn't know but what an exchange of trophies would be fair.

STRANGLED HIMSELF.

Inmate of the Columbus Insane Asylum Commits Suicide.

Columbus, March 25.—A sensational suicide occurred at the Central Insane asylum yesterday. The self-murderer was James Rockwell, whose home was at Washington C. H.

Until a few months ago Rockwell was an inmate of the asylum, but lately he has been acting as an assistant to the telegraph operator at the asylum. Rockwell expected to be appointed operator as soon as Dr. Richardson assumed charge of the asylum.

Rockwell went to his room, tied a small rope around a bedpost and around his neck. Then he deliberately threw himself at length upon the floor to strangle himself. He was found there shortly before noon dead. Physicians worked several hours to revive him. Rockwell was 27 years old, and his insanity originally came from overwork and la grippe.

# THE KAISER IS BETTER.

## He is Preparing for a Hunting Trip.

### He Will Not Return to Berlin Until Public Affairs Have Assumed a More Quiet Stage.

Berlin, March 25.—The best evidence that the kaiser is improving in health is the fact that he is getting ready to go on a hunting trip. He has sent for his weapons, which include a hunting rifle made especially for him, and which he can use with one arm.

The kaiser has postponed his return to Berlin, and evidently wishes matters to settle down before he appears again at the Schloss. The kaiser was invited to a dinner to be given on Saturday by the Austrian ambassador and has asked that it be postponed, as he desired to be present, and could not be present on Saturday.

From this it is expected that interesting and significant remarks will be uttered by the kaiser when the dinner comes off, and that he will probably take occasion to renew his pledges of friendship to Austria. His anxiety to attend the Austrian ambassador's dinner is contrasted by the Berlin public with his indifference to the czar's birthday celebration.

SHOOTING AFFRAY AT CELINA.

Celina, O., March 25.—George Byers, a young farmer, while under the influence of liquor, began abusing J. W. Davis. Words brought on blows, which terminated in a shooting affray. Byers pulled a 38-caliber revolver and fired at Davis, the shot taking effect in the right side. He lies in an unconscious state, and all efforts to find the ball have proven futile. It is feared he will die.

WILL CONTINUE ANOTHER YEAR

Youngstown, O., March 25.—The Mahoning and Shenango Valley Iron Manufacturers' association held a meeting here yesterday and discussed the question of disbanding the organization. It was finally decided to continue another year, and the association adjourned to the middle of April, when the annual meeting will be held.

TO BREAK IN AGAIN.

Foraker Wants to be Where He Can Make Trouble.

Washington, March 25.—"Foraker is for Harrison," said Secretary Foster today. "He called upon me at my house and we had a pleasant interview. It was chiefly on business, however, he being the attorney for parties concerned in a western public building site.

"Of course we talked politics some, we couldn't help doing that. I imagine he would like to go to the national convention as a delegate from Ohio, although he did not say so. I am sure that I have no objection to his being a member of the delegation. I think Ohio will be for Harrison, and if he is renominated, as I believe he will be, our state will give him a safe majority."

POISONED THE OFFICERS.

Two Women Create a Sensation at Chattanooga.

Chattanooga, Tenn., March 25.—Until yesterday afternoon the lives of the superintendent and four guards at the county workhouse were in imminent danger from poison administered to their food at supper by two women prisoners, Mollie Reno, white, and Lizzie Webster, colored.

The white woman had vowed vengeance as the result of her capture on Tuesday after an escape. The poison was put in milk, and during the excitement the women succeeded in getting out of their cells. They tore up a plank in the floor, and with it dug their way to liberty. Officers are now on a hunt for them.

TO FIGHT THE TRUST.

A Big Independent Sugar Refinery To Be Built.

Philadelphia, March 25.—The acquisition by the American Sugar Refining company of all the refineries in this city has started a movement for the erection of an independent plant.

A syndicate is now being formed, composed of a number of sugar brokers and financiers for the carrying out of a plan for the erection of a mammoth sugar refinery. It is said this syndicate has about concluded negotiations for 20 acres of ground in the southern section of the city on the Delaware river.

FOR CLEVELAND

Washington, March 25.—District of Columbia has elected Cleveland delegates.

# AFRAID OF HIS LIFE.

## The A. P. A. after a St. Louis Musician.

### The Anti-Catholic Crusade Drives a Man to Commit Suicide—Claims He Was Warned.

St. Louis, March 25.—Max Phillips, the band leader, who slashed himself with a knife at his home here, and who is now lying at the city hospital, says that he sought his life because he feared assassination at the hands of the anti-Catholic and native American society called the American Protective Association. Phillips, who is well educated, seems to be in great terror.

"I am a Jew and I had to swear to vote against the Irish and the Catholics," he said. "I thought I would be killed. They threatened me indirectly by messages and looks. They thought I was two-faced and didn't trust me. I couldn't stand it."

"Did any man ever threaten you directly?"

"No, I was warned."

The American Protective Association held a national convention in St. Louis two months ago, keeping the proceedings secret.

FIRE TRAP COURT HOUSE.

It Burned, Causing Great Damage.

St. Charles, Mo., March 25.—The court house at this place was destroyed by fire last night. The fire originated in the surveyor's office and destroyed the records on file. The building was an old structure, but the loss to the county by the burning of maps, records and deeds is beyond estimate.

INJURED IN A WRECK.

Bonham, Tex., March 25.—Yesterday morning a westbound freight train on the Texas & Pacific railroad collided with an engine which was left standing on a switch too near the main track at Choctaw.

The freight engine was overturned and rolled down a steep embankment, injuring Engineer A. E. Leighly, and Fireman J. W. Keeler so badly that they will die.

# INSANE MAN'S DEED.

## He Jumps from a Third Story Window.

### His Wife, Who Tried to Stop Him, Was Dragged With Him and Seriously Injured.

New York, March 25.—John Bielenberg, a clerk 34 years old, lived with his wife Teresa, aged 32, on the third floor of No. 222 East One Hundred and Eighteenth street.

Last evening Bielenberg suddenly became insane and ran to one of the rear windows and threw himself out. His wife caught him just as he was about to jump and tried to hold him. His weight was too much for her and he fell, dragging her with him.

They landed in the yard. Bielenberg was unhurt, but his wife was terribly bruised. The crazy husband was locked up.

HE GOT EVEN.

Shooting Affair That Will Never be Aired in Court.

Dexter, Mo., March 25.—Yesterday afternoon Joseph Myerick shot and instantly killed Thomas Edwards at Sims' Mills, 10 miles west of here.

Edwards was a desperate character, and yesterday while drunk went to the home of old man Sims, who was Myerick's grandfather.

Drawing his gun, he made Mr. and Mrs. Sims dance, pray, etc., until the old couple became exhausted.

Myerick was unarmed and powerless, but after Edwards left he secured a shotgun and following him emptied its contents into the back of his head.

# CLAY MILLER ARRESTED.

## A Big Sensation at Upper Sandusky.

### Assignee R. E. Kerr Called the Law In to Protect Him From a Citizen.

Upper Sandusky, O., March 25.—(Special)—Clay Miller, who lately made a heavy assignment, was arrested at 10:30 last night on two different charges preferred by his assignee, R. E. Kerr.

One charge was that of assault and the other for threatening his life.

The assault charge was heard by Mayor Jones this morning and resulted in Miller being fined $10 and costs.

The hearing of the other charge was set for Monday.

Miller is a prominent and well known resident and his arrest has created quite a stir.

O'BRIEN FOUND GUILTY.

Convicted of Robbery in the Third Degree.

Albany, March 25.—The jury in the O'Brien case came into court at 10 o'clock this morning, and rendered a verdict against the famous bunco men of robbery in the third degree. The defendant took the result very coolly. Exceptions were taken by the defense, and a delay of two days in passing sentence was asked. The court at first was not inclined to acquiesce, but finally granted the request. The maximum sentence for robbery in the third degree is ten years. O'Brien will be sentenced on Monday.

O'Brien was indicted for larceny in 1889 and again for robbery in 1891, and extradited from England on that charge after a long legal fight. The crime for which he was this morning convicted was for robbing John M. Peck, an old resident of this city, of $10,000, on January 26, 1889. O'Brien claimed that he won the money playing cards with Peck, but the evidence plainly showed that it was a clear case of robbery.

Judge Clute, it is expected, will pass the extreme sentence of the law upon O'Brien.

# NEWS FROM COLUMBUS.

## Interesting Gossip from the State Capital.

### A Move to Aid Electric Railroads.

### Many Measures Rushed Through Both Houses—Heller's Road Improvement Bill—General.

Columbus, March 25.—(Special)—House bill No. 553, by Mr. Dodge, has passed the house of representatives without a dissenting vote. This act contemplates the building or extension of electric railroads into the country upon the country roads, and provides that in case plank road companies have prior charters by which they occupy or claim right to the entire 60 feet the electric railway company may appropriate so much of the 60 feet as is necessary for the construction of their railway, provided they pay all damages to the plank company and secure the right to build from a majority of the property owners.

This is the first act that ever passed a legislative body looking to the extension of building such roads. It is expected that an electric railway will be built from Cleveland to Shardon, a distance of 28 or 30 miles, in two divisions, the first division beginning at the end of the Broadway road in Corlett, and extending to Chagrin Falls. The second division from Chagrin Falls to Chardon. Work will be commenced on both of these divisions the coming summer. Mr. Dodge is the sole advocate of the idea of building these roads from every great center of population out into the fields of agricultural production for a distance of 30 miles. Having in view the idea of using these roads not so much for passenger traffic as for mail, express and food products.

The Gerrymander.

The senate refused this morning to concur in the house amendments to the redistricting bill, but the house insisted, and a conference committee was appointed as follows:

On part senate—Carpenter, of Meigs; Lampson, Spencer.

House—Clark, Ely, Willis.

A majority of this committee are Sherman's friends.

A peculiar case was filed in the supreme court to-day. Jas. Riley sued C. N. Gaumer for $400. It is alleged that Gaumer was to have paid for a new dress for the paper sold by him at St. Clairville. Riley won the case before a justice of the peace, but the common pleas and circuit courts decided against Riley, so it comes up on error.

A motion was made to reconsider the vote on the Cincinnati water works bill and its consideration postponed until next Tuesday. It is expected that there will be more hair pulling.

Taylor's standar time bill, which was defeated has been reconsidered and postponed until the second Thursday of next January.

Against Cigarettes.

Representative Boyce will next week introduce a bill to prevent the manufacture and sale of cigarettes in this state. It is carefully drawn so as to be able to stand any test that might be made in court.

Notes.

Senator Gear has introduced another bill to license venders.

The house has passed the bill requiring that physical culture be taught in public schools.

Senator Carpenter is getting up a junket to look at the 5-cent fare question from a railroad standpoint.

The house has passed the McCoy bill providing for an asylum for the care of the insane in eastern Ohio.

Pudney's bill, requiring contractors to build scaffolds with proper guards for workmen, has passed the house.

The senate yesterday afternoon passed Heller's bill to authorize the improvement of the river road in Providence township, Lucas county.

The senate has adopted a resolution requesting senators and representatives in congress to vote for the world's fair appropriation bill.

The house committee on fees and salaries has recommended the passage of Heller's bill giving court bailiffs of Lucas county $600 yearly.

The house has passed Mr. Winn's bill providing for court stenographers in the counties of Defiance, Paulding and Williams, at a salary of $800 a year.

Ely's bill providing that the tax levy for "farmers' institute purposes shall be equally divided between the state board of agriculture and the farmers' institutes, passed the house yesterday afternoon.

The senate yesterday afternoon confirmed the appointment of M. E. Douglass as trustee of the Working Home of the Blind for the term ending in April, 1897.

The senate passed Winn's bill yesterday afternoon authorizing the board of education of Hicksville, Defiance county, to issue $25,000 in bonds for normal school purposes.

The senate yesterday afternoon passed the Llewellyn bill to provide for the consolidation of the geological reports of Ohio for the years 1880, 1891 and 1892, and appropriating $4,000 to complete the survey.

Jackson township, Van Wert county, will have good roads if the people indorse the bill passed by the senate authorizing the issue of $20,000 in bonds. Mr. Gilliland is the author.

The house passed yesterday afternoon Mr. Ely's bill to abolish the meteorological bureau and establish a weather and crop service under charge of the state board of agriculture.

As soon as the house passed Kelly's bill extending the time of the Lockwood will case in Erie county into the next term of court, it was hustled over to the senate and passed under suspension of the rules.

Representative Hays will on Monday offer a joint resolution proposing the submission of a constitutional amendment to the electors, providing for the election of members of the house of representatives by legislative districts.

House bill by Mr. Davis, amending sections 2568, 2572 and 2572a of the revised statutes, provides for the inspection of hospitals, medical institutes and asylums, with a view to ascertaining the means provided for egress in case of fire.

# KNOCKED IN THE HEAD.

## Bland's Silver Bill Rapped Very Hard.

## The Measure Placed on the Calendar.

### Very Probable That the Committee on Rules Will Find It Convenient to Take It Up Again This Term.

Washington, March 25.—Mr. Bland this morning said he was surprised at the vote on his bill last night. He had been led to believe that certain men would stand by him.

They had gone over to the opposition and aided in the result of yesterday. He was still hopeful of the ultimate success of the bill, however.

The action of the house in refusing to lay the bill on the table, and the fact that its friends can not muster strength enough for favorable action is looked upon to-day as proof of the statement that the democrats are beginning to see that the country needs reform in other lines first, and that the tariff is the question upon which they will unite. The scenes in the house last night were very stirring.

The calm this morning after the storm last night was most refreshing.

The anti-silver men were smiling and jubilant, and gathered in little groups to discuss the events of yesterday and to map out a program for the future.

This being private bill day the attendance was not large, and doubtless many remained at home to recuperate their energies after the exciting 12 hours session of yesterday.

The free silver leaders were conspicuous by their absence. The lull in the proceedings was in striking contrast with the memorable incidents of Yesterday. The galleries were only partially filled. It seems to be understood that a rule will be reported by the committee on rules to take up the silver bill early next week. Mr. Catchings returned this morning.

Mr. Tracy, one of the leading anti-silver men, has requested a hearing before the committee on rules in regard to what motions may be made when that bill is again brought before the house.

The republicans will vote with the anti-silver men and have ruined all the party advantage they expected in the fracas last night. The republican leaders have so informed Mr. Tracy.

A resolution was passed providing for an investigation of the recent fire in the folding room by the committee on public buildings and grounds.

The house then went into committee of the whole on the private calendar, the bill for the relief of H. H. and Charlotte Sibley being the unfinished business.

# WANTS IT TO A FINISH.

## Sullivan Refuses to Sign the Corbett Articles.

### Miscellaneous Sporting Notes of General Interest to Readers of the Bee.

Chicago, March 25.—John L. Sullivan has not yet signed the articles of agreement sent to him by President Noel, of the New Orleans Olympic club. The document was returned to the Crescent City by Jimmy Wakely yesterday for certain amendments and eliminations. Just what these are and what they involve is known only to Sullivan and his backer.

Both were seen at the Windsor theater last night, and the champion was asked the reason for the return of the articles.

"They don't amount to much, and I would rather not state them. We wanted to have a finish fight, and so we are very careful as to the paper we sign. There is very little difference between the original and amended articles we ask for."

Sporting Notes.

Minneapolis gets Dell Darling.

Read the Bee sporting column on Saturday.

All but two of the Columbus club have reported.

The Columbus boys walk 10 miles a day now to get limbered up.

The papers in every city in the league echo what the Toledo Bee said when it reviewed the men signed by Toledo, and pronounced the ball team a good one.

PROHIB NOMINATION.

St. Mary's, O., March 25.—(Special)—The prohibitionists met at the Baptist church last night and nominated the following corporation and township tickets:

Mayor, J. F. Stout; clerk, M. L. Hall; treasurer, Albert Miller; marshal, Thomas Slife; councilmen, B. F. Lloyd, Hamilton Schaffer, Emanuel Walters; gas trustee, Rev. S. S. Gibson.

Township trustee, John Barrington; clerk, David Rick; assessor, James Havenor; justices of the peace, Joseph Barrington and L. G. Neely.

The election this spring will be the hottest known here for years, as all three parties have placed strong tickets in the field.

VALUABLE HORSE KILLED.

St. Marys, O., March 25.—(Special)—C. W. Frasier, a Shelby county farmer, lost a valuable horse last night in a remarkable manner.

The animal had kicked the boards off a partition causing a heavy post to project into its stall, on which the animal became impaled in some unaccountable way during the night.

This morning it was found dead, the post having run entirely through its body.

PLACED IN JAIL.

## Fatal Accident in Adrian, Mich.

### A Woman and One Child Fatally Burned and Another Burned to a Crisp.

Adrian, Mich., March 25.—This morning while Mrs. Henri Lards, wife of Turnkey Lards of the county jail, was cleaning the carpet of one of the rooms of her home on Erie street with gasoline a gasoline stove in an adjoining room exploded.

Her two children, a boy of 2 and a girl of 3, were in the room with her. In an instant the room where the mother was at work upon the carpet was ablaze.

The clothing of all three became ignited and the mother and older child ran screaming into the yard, forgetting the little boy.

Neighbors came to the rescue but not until the clothing had been burned off the mother and little girl. The little boy was burned to a crisp. Mrs. Lards and the girl are thought to be fatally burned.

## Late Correspondence With Salisbury

## On the Much Discussed Bering Sea

## Submitted by the President to the Senate.

## Wharton's Reply to the English Note.

**American Rights Must be Protected —"Our Honor is at Stake and We've Got the Men and Money to Command Respect."**

Washington, March 25.—At the conclusion of the executive session of the senate yesterday, which lasted four hours, the correspondence received from the president relative to Bering sea was made public. It comprises two communications as follows:

Sir Julian Pauncefote to Mr. Wharton.

British Legation, March 19, 1892.

Sir—On receipt of your note of the 8th I immediately telegraphed to Marquis of Salisbury the substance of its contents in accordance with the request which you expressed on behalf of the president, and I now have the honor to inform you that I have this day received a reply from his lordship by telegram, to the following effect: Lord Salisbury again points out that the information in possession of her majesty's government does not lead them to believe that another year's suspension of sealing is necessary to prevent an undue diminution of the seal herds.

His lordship, however, proceeds to observe that beyond this question it is considered by your government that they have a right to be protected from the loss which they may incur from free sealing being permitted this year, in the event of their claim to Bering sea being upheld by the arbitrators. He states that her majesty's government does not dispute that after the ratification of the convention there will be some foundation for this contention, but he adds that the prohibition of all sealing as a remedy has this defect, that the British sealers excluded from Bering sea would have an undoubted ground for complaint if the British claim should be upheld by the arbitrators. Moreover, there is no security that arbitration will be concluded before the sealing season of 1893. Thus an arbitration between Great Britain, the United States and Portugal, which has already occupied four years, is still pending.

Serious damage would be caused to the industry by a suspension of the sealing for a long period. In view of the above considerations, it appears to her majesty's government that it would be more equitable to provide that sealing in Bering sea shall continue on the condition that the owner of every sealing vessel shall give security for satisfying any damages which the arbitrators may adjudge. I shall be glad to learn that the above suggestions meet with the concurrence of your government. I have the honor, etc.,

JULIAN PAUNCEFOTE.

Wharton to Pauncefote.

Department of State,

Washington, March 22, 1892.

Sir—I am directed by the president to say that your note dated the 19th instant and delivered on the 20th instant (Sunday), has had his immediate attention in view of what he deems to be the extreme urgency and gravity of the matter under discussion. The urgency grows out of the fact that much further protraction of this discussion will make any modus that may be agreed upon ineffectual to protect the interests of the United States and will give to the Canadian sealers practical immunity, by reason of the impossibility of communicating to them the agreed restrictions. It is known that sealers have hastened their departure to escape notice of a possible modus, and that every day almost adds to the fleet that must now be overhauled at sea.

Already 47 Canadian vessels have cleared for the sealing grounds (as against 31 at the same date last year), and are engaged in following up and destroying the seal herds. These vessels will, if not stopped and turned back at the passes, go into the Bering sea and pursue to the very shores of our islands the slaughter of the mother seals seeking the accustomed rookeries to be delivered of their young. This is a crime against nature. This government expects to show, if the arbitration proceeds, that female seals constitute the larger per cent of the catch to the pelagic sealers.

That in view of this serious and confident contention of this government his lordship should assume that another year's suspension of such sealing is not necessary "to prevent an undue diminution of the seal herds" and should insist that pending an arbitration it shall go on, precisely as if no arbitration had been agreed upon, it is as surprising as it is disappointing.

If her majesty's government so little respects the claims and contentions of this government as to be willing to forbear for a single season to disregard them, the president cannot understand why Lord Salisbury should have proposed and agreed to give to those claims the dignity and standing which a reference to a high court of arbitration implies.

For the moment an arbitration was agreed upon, neither party was at liberty to disregard the contentions of the other.

It must be assumed that the sincere purpose of the two governments was to promote peace and good will, but if pending the arbitration either deals with the subject of it solely upon the basis of its own contention and in utter disregard of the claims of the other, this friendly end is not only not attained but a new sense of injury and injustice is added, even if it should be found possible to proceed with an arbitration under such conditions.

For it must not be forgotten that if her majesty's government proceeds during this sealing season upon the basis of its contention as to the rights of the Canadian sealers, no choice is left to this government but to proceed upon the basis of its confident contention that pelagic sealing in the Bering sea is an infraction of its jurisdiction and property rights.

His lordship will hardly fail to see this. Herein, in the opinion of the president, consists the gravity of the present situation, and he is not willing to be found in any degree responsible for the results that may follow the insistence by either government during this season upon the extreme rights claimed by it.

In his opinion it would discredit in the eyes of the world the two great governments involved if the paltry profits of a single season should be allowed to thwart or even disturb the honorable and friendly adjustment of their differences, which is so nearly concluded; but if his lordship shall adhere to his refusal to unite with us in prompt and effective measures to stop pelagic sealing and shall insist upon free sealing for British subjects the question is it affects this governmnet is no longer one of pecuniary loss or gain, but one of honor and self respect.

This government, notwithstanding the fact that its right to take seals upon the Pribilof islands is undisputed and wholly uninvolved in the arbitration, has proposed to take no profit from the island catch, but to limit the taking of seals to the necessities of the natives of those islands, and it cannot consent that, with indemnity or without, the contested rights of British subjects to catch seals in the Bering sea shall be exercised pending the arbitration.

The president finds it difficult to believe that Lord Salisbury is serious in proposing that this government shall take separate bonds from the owners of about one hundred Canadian sealing vessels to indemnify it for the injury they may severely inflict upon our jurisdiction or property, and must decline to discuss a suggestion which only his respect for Lord Salisbury and his belief that his lordship has duo appreciation of the gravity of this discussion, enable him to treat with seriousness.

We should doubtless have to pursue and capture upon the sea many of the owners of those vessels to secure the bonds suggested, and as the condition is to be that the obligors shall pay "any damages which the arbitrators may adjudge," while the treaty gives the arbitrators no power to adjudge any damages the transaction would be without risk to the obligors and of no value to us.

This government cannot consent to have what it believes to be its rights destroyed or impaired pending their determination by an agreed tribunal, however adequate the security offered.

The reference in my last note to the incompetency of her majesty's government in denying responsibility for the acts of the Canadian sealers was not intended to suggest a willingness on our part under any circumstances to see our property converted into a claim for damages, and particularly as such a claim cannot now be heard or determined by the arbitrators without a reformation of the treaty, for his lordship must remember that while he now offers what he mistakenly calls "security for satisfying any damages which the arbitrators may adjudge," he has already carried his point in the treaty that the arbitrators shall have no jurisdiction to award any damages.

As to his lordship's suggestion that Canadian sealers may have some claim for compensation if Great Britain shall retain pelagic sealing the president directs me to say that he is not able to see how the citizens or subjects of either of the treaty powers can by any rule of law or equity support any claim against their respective governments growing out of such necessary trade restraints as the governments may lawfully impose to promote the larger conditions of the public good and international peace.

The suggestion that the conclusions of the board of arbitration may not be reached and announced in time to govern the conduct of the parties during the season of 1893 is, the president thinks, fully provided against by the treaty itself.

His lordship is mistaken as to the time that has elapsed since the signing of the Delagoa Bay agreement with Portugal.

It is not four years old, but less than one, the date of signing being June 13, 1891.

If the present treaty is ratified and exchanged our mutual interests would be an ample guaranty against delay. The president has found no obstacle in the way of such a consummation, except the belief now unfortunately prevalent here that the refusal of Great Britain to agree to the preservation of the status quo of the property during the arbitration, and her insistence that pelagic sealing shall go on to the jury, if not the destruction of our rights, largely defeats the object of the treaty.

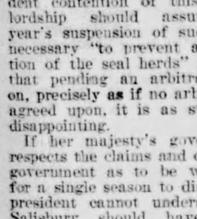
The president will hear with regret that her majesty's government continues to assert a right to deal with this subject precisely as if no provision had been made for a settlement of the dispute, and in that event, this government, as has already been pointed out, will be compelled to deal with the subject upon the same basis, and to use every means in its power to protect from destruction or serious injury property and jurisdictional rights which it has long claimed and enjoyed.

I have the honor to be, with the highest consideration, sir, your obedient servant,

WILLIAM F. WHARTON.

Acting Secretary.

The president transmitted the correspondence without comment.



*A helping hand* to lift up weak, tired, overtaxed women—that's what you'll find in Dr. Pierce's Favorite Prescription. It gives you just the help that you need.

It's a medicine that's made especially to build up women's strength and to cure women's ailments—an invigorating, restorative tonic, soothing cordial, and bracing nervine; purely vegetable, non-alcoholic, and perfectly harmless. It regulates and promotes all the proper functions of womanhood, improves digestion, enriches the blood, dispels aches and pains, melancholy and nervousness, brings refreshing sleep, and restores health and strength.

What's the use of "trying this" and "trying that," when here is a remedy that's *guaranteed?* In all the derangements, irregularities, and weaknesses peculiar to the sex, periodical pains, internal inflammation and ulceration, weak back, leucorrhea and every kindred ailment, if the "Favorite Prescription" fails to benefit or cure, you have your money back.

### WONDERFUL REALISM.

Every atom of scenery used in the production of "She Couldn't Marry Three" is specially built for the play. There are over three tons of it; it is worth going miles to see. One of the most notable scenes in the play is a picture of the Cornish coast, with practical revolving lighthouse and moonlight on the ocean; also, the view of Carboy's Abbey with crumbling walls and clinging ivy, a scene so beautiful as to baffle description. In the last act of the play is shown an exact representation of Dingley Tunnel, one of the most stupendous and natural railroad scenes ever produced.

Every one of these novel effects are guaranteed by Manager Hassenforder, and will be seen here in the production of "She Couldn't Marry Three."

# THE PLATFORM IS MADE

## And the Candidate is Nominated.

**Cleveland and Tariff Reform is What the Indiana Democrats Are Demanding.**

Indianapolis, March 25.—A great political sensation was caused by a meeting of the General James Shields club, of this city, at Masonic hall. This club is the Irish-American democratic organization of the city and includes in its membership practically all of the leaders of the Irish democrats.

The meeting was arranged in honor of the Hon. John G. Shanklin, ex-secretary of state, editor of the Evansville Courier, and a leading candidate for governor on the democratic ticket. The orator of the evening was Mr. Shanklin and it was his utterances and the subsequent demonstration that created the sensation.

Mr. Shanklin launched immediately into a discussion of national politics. He said it was immaterial who was nominated for governor so that the right nomination be made for president. The situation demanded the nomination of Cleveland.

He said that 90 per cent. of the democrats of Indiana demanded that nomination, and if the party desired or expected to achieve victory in Indiana next fall, it must listen and obey the voice of the people.

The audience was fairly dazed at the boldness of these words. When the audience got its breath, however, a scene of the wildest enthusiasm occurred and the cheering continued for many minutes.

The scene was re-enacted when the Hon. John W. Kern declared that he indorsed every word uttered by Mr. Shanklin without the dotting of an "i" or the crossing of a "t," and the uproar was renewed when Attorney General Smith said the fight this fall must be made on the tariff reform lines laid down by Grover Cleveland.

### KILLED BY A BURGLAR.

**A Negro Splits Open the Head of a Woman.**

Milledgeville, Ga., March 25.—Louis Williams, a negro, entered the house of Rev. S. C. Leonard, Wednesday, and was discovered by Mrs. Leonard in the act of stealing some valuables.

Mrs. Leonard made an outcry, whereupon the burglar struck her with an axe, inflicting injuries from which she died. Williams was arrested and it is probable that he will be lynched.

### SOULE IN OMAHA.

Omaha, Neb., March 25.—Frederick A. Soule, the much wanted treasurer of the Chicago and Jefferson Urban Transit company, who quietly slipped out of Chicago a few days ago, has been located in Council Bluffs. He refused to be interviewed.

# AT THE THEATERS.

## Some of Those Who Will Appear in Tangled Up

**At Wheeler's This Evening—The Attraction at the Peoples' Next Week Will be a Very Strong One.**

The principal novelty in the theatrical line this week is the first appearance at the Wheeler opera house this evening of the DeLange-Rising Comedy company in the roaring comedy, Tangled Up, an adaptation of La Grave's French play, "Qui est Maitre Ici?" and Alfred Cellier's one-act operetta, Charity Begins at Home, as a "curtain raiser." The comedy is of the order of Private Secretary, Wilkinson's Widows, etc., and is described as a delightful absurdity, for laughing purposes only, and has an ingenious and complicated plot that naturally suggests the title, for three couples are brought into confusion by a midnight ride, an exchange of grips, similarity of names, and a baby. Other complications are brought about by the efforts of an Irish servant who tries to work for two masters, and is continually making blunders. The play differs from the farce-comedy, so-called, of the present day, for while the motive is farcical, the treatment is something like that of the vaudeville of olden times, and like all plays of the kind, abounds in a succession of complex situations, cross purposes and perplexities. The innocent suffer for the guilty in the general confusion, but in the end the "tangled" web becomes untangled, and everything is explained satisfactorily. The dialogue is said to be very witty and the complications hilarious and extravagantly ludicrous, keeping the audience in a roar from start to finish.

The list of names of the ladies and gentlemen in the cast shows the company to be strong both musically and dramatically. The company is headed by Will S. Rising and Louis DeLange. The former will be pleasantly remembered for his clever work in the Little Tycoon, and last season in support of Lotta. Louis DeLange was formerly leading comedian of Aronson's Casino company, and has been seen here in the whole range of comic opera roles. Alexander Clark, late of the Greenwood Opera company, is a young comedian of great promise. Agnes Stone, a sister of Marie Stone, is a talented comedienne. Miss Lottie Mortimer, the petit soubrette and danseuse, is a well-known artist, and will introduce in the comedy her famous serpentine dance, the latest sensation in skirt dancing. Other members of the company are: Gilbert Gregory, formerly of Dixey's company; Bingley Fales, late with Lizzie Evans; Miss Jessie Allatire; Lillian Cummings, G. R. Pollard and Emil Wolff, musical director.

At the People's Next Week.

It is an interesting story of the Ireland of to-day that is told by Dan McCarthy in his successful, picturesque Irish-American comedy-drama, The Cruiskeen Lawn, which comes to the People's next Monday for a week. The Giants' Causeway, the Blarney Stone, and many other scenes dear to the Irish heart are shown with all their picturesque beauty. The company is a strong one, and the piece will no doubt draw large houses.

# HE DIED SMILING.

## A Negro Faces His Sentence Calmly.

**He Fully Expected to be Landed Direct From the Scaffold Into a World of Happiness.**

Louisville, Ky., March 25.—Henry Smith, a negro, was hanged in the jail yard early this morning. When he mounted the scaffold Smith, whose courage never left him, stepped to the front and made a short speech.

He said he had nothing to say but to welcome death. He was satisfied that he would pass into that world where there was nothing but happiness. He closed with a fervent amen. He then stepped on the trap. As the noose was put around his neck Smith laughed and said: "Be careful."

He was smiling all the while. The drop fell at 6:20, and at 6:38 he was pronounced dead. His neck was broken.

The murder for which Smith was executed was committed on the afternoon of January 18, 1891. Without provocation he shot down his employer, Louis Specht, a white man. After lingering five days Specht died and the charge of malicious shooting which had been registered against Smith was changed to murder.

# SENATOR BURNS

Of the Twelfth Ohio Senatorial District Makes a Strong Statement.

**A Case That Dates From the Late War and Illustrates the Success In Cases of Long Standing.**

The following statement from Senator Thomas A. Burns, who represents the Twelfth senatorial district in the present Ohio legislature, will be read with much interest by the senator's many friends in this city and vicinity. The statement is in his own words and over his signature:

"While in the federal service in the winters of 1861-62, I contracted a heavy cold, which brought on pneumonia and resulted in disease of the lungs and throat. From that time until my term of service ended, November, 1865, I was more or less affected. Just after my return from the army I had profuse hemorrhage of the lungs, which has occurred at intervals several times. About 1874 I was attacked with catarrh of the throat and lungs, and gastric catarrh of the stomach, which prostrated me for thirty days, so that I was not expected to recover. In the fall of 1881 I had another attack of catarrh of the head and throat which produced gathering in the head; entire deafness of the left ear; soreness of the throat and trachea, extending to the lungs, with profuse discharge from the nose and throat. In this condition three eminent physicians despaired of my recovery, and told me that I would have to procure other medical assistance, as they could do no more for me. I applied to a prominent physician of Cincinnati, specialist for throat and lung diseases, who gave me treatment, and I think did me much good, and I believe would have effected a cure had his diagnosis discovered the true cause of my disease. I have been treated for twenty years past by three very eminent physicians at my home, and to whose medical skill I give the honor affording me temporary relief.

"The first of January, 1892, seeing Dr. Copeland and associates' notice of treatment for catarrh and lung diseases, I called on them at their offices. Their diagnosis was so thorough that I was convinced that they had discovered the true cause of my debility. At my second visit the doctors removed from the nasal passage of the left side a polypi tumor larger than a quail's egg, and from the right side a tumor about half the size of the other. The operation was performed without pain or other inconvenience, and did not necessitate an hour's loss from business.

"I have been under the doctors' treatment for two months. Since the removal of the tumors or polypi I have experienced no trouble at all with catarrh of the head. My throat has not been sore since the operation. My general health is much better than it was before the treatment, and I feel greatly encouraged and that I shall not experience any further trouble with nasal catarrh.

"I want to say this is not a paid statement, but given for the benefit of any who may be likewise suffering.

"Dr. Copeland's charges to me were $5 per month and no more."

THOMAS A. BURNS.

**Mr. Rice's Case.**

It is rarely that the specialist, whose observation covers a wide range of throat and lung troubles and whose experience brings him in contact with many of the serious and desperate cases resulting from neglected catarrh, sees a more pronounced case and one more typical of what head and throat trouble, if neglected or not properly treated, may develop into, than the case of Mr. Ancil G. Rice, of 219 Dix street. As near as possible we give his own words:

"My trouble has all been due to chronic catarrh," says Mr. Rice, "and it was not neglected, either, for I have doctored for years, but been improperly treated. I had occasional violent headaches. My eyes were weak and watery and my nose was continually stopped up. I was forced to breathe through my mouth.

"My throat was always filling up with the dropping of the mucus from the head. I was hawking and spitting all the time. My throat was at times very sore and raw. My rest was poor at night and I was really unfit for business in the morning.

"As I said, I tried many prominent physicians, but experienced very little relief. I had heard and read of the success of Dr. Copeland and associates, and concluded to give them a trial. I did so with the result that my pains, aches and other troubles are all gone. The change in my condition is such that I unhesitatingly recommend Dr. Copeland and associates to all who suffer as I did."

**Nasal Polypi Described by a Patient.**

"I had been troubled for a number of years," said Mr. George Hoffman, of 107 Empire street. "My head and nose was completely stopped up and I had to breathe through my mouth. This was due, in a measure, to the accumulation of mucus, but more especially to a number of polypi tumors which filled both nostrils. I had treated with a number of physicians but none of them discovered the tumors. Some time ago I called on Dr. Copeland and associates, and placed myself under their treatment. They immediately removed seven polypi tumors and I was able to breathe through my nostrils, something I had not done in years. They then treated my catarrh, and I am happy to say I am feeling better to-day than I have for years. The removal of the tumors was without the slightest pain or loss of blood. I cannot recommend Dr. Copeland and associates too highly."

**Results In a Case Treated by Mail.**

Portage, O., Feb. 9, 1892.

Copeland Medical Institute, Toledo, O.:

Gentlemen:—Since taking your treatment for catarrh, I am very much better. My general health is much improved, my sense of smell has returned. My case was a chronic one and will require time. I am greatly encouraged and anticipate a complete cure. Refer anyone to me.

Yours respectfully,

N. C. BESANSON.

**A Prominent Real Estate Agent Tells of the Removal of Twenty Polypi Tumors.**

Among the many prominent real estate agents in Toledo, none are more popular or more favorably known than Mr. J. J. Sumner, whose offices are at the corner of Superior and Madison streets, and who lives at 721 Prouty avenue. Mr. Sumner tells of his experience with Dr. Copeland and associates as follows:

"I had catarrh for a long time. My nose stopped up so that I could breathe only with great difficulty. In damp weather I could not breathe at all. I suffered from terrible, racking headaches. I often thought my head would burst with the throbbing and the pain. There was a constant flow of mucus from my nose, and my eyes became sore and watery. I did not sleep well, and I found that I was losing my sense of smell. I was most distressed, however, about my voice, which changed in tone until it sounded as if I pinched my nose with my fingers while talking.

"I was quite in despair, when after reading the testimonials of the patients of Dr. Copeland and associates I determined to make a trial of their treatment. I accordingly went to the Copeland Medical Institute, and it was only a short time until I began to breathe through my nose, until the headaches disappeared and until the polypus growths were removed. I can now hear the natural voice that has returned to me, much to my comfort and delight. I sleep well and I feel well. I have only one fear, and that is that the polypi may return, so I have concluded to continue the treatment for another month, at the end of which time I shall be forever rid, I hope, of the complaint that for four years made life a burden to me. I am glad to add my small tribute of praise to the splendid work of these physicians."

Notice to Contractors.

Scottwood Avenue.

Sealed proposals will be received by the undersigned, up to 12 o'clock at noon of Monday,

THE 28TH DAY OF MARCH, 1892,

for improving Scottwood avenue from the paving in Bancroft street to the south gutter line of Virginia street by paving the central thirty (30) feet thereof with either cedar blocks, Vitrified brick or Trinidad asphalt laid on a foundation of hydraulic cement concrete, together with the necessary grading, curbing, crosswalks, drainage, etc.

The contractor or contractors who shall do the work herein provided for shall be paid in cash within ninety days after the completion of the work and the acceptance thereof by the city.

All bids must be written with ink and the price of each item shall be written out in full as well as in figures. Each bid must contain the full name of every person interested in the same. All parties filing bids for the matters specified in this notice, must deposit with the city clerk on each bid the sum of two hundred dollars. All deposits to be in cash or certified check on a bank doing a regular banking business in the city of Toledo, and accompanied by an agreement signed by the bidder and two disinterested persons, guaranteeing that, if the bid is accepted, a contract will be entered into—otherwise the amount deposited to be forfeited to the city; and in case a contract is entered into, said deposit to remain until the first estimate of work done, (or double the amount of deposit,) is reported to the common council.

Bidders will be required to indorse their names on the outside of the envelope containing their proposal, and what the bid is for, the same to be filed with the city clerk. Bids not filed in accordance with the above requirements will be rejected.

Blank bids and envelopes can be obtained of the undersigned or of the city civil engineer.

Bidders must specify the time within which they will commence and complete the work after the acceptance of their bid.

Plans and specifications can be seen at the office of the city civil engineer.

The council reserves the right to reject any or all bids.

By order of the council,

C. H. DURIAN, City Clerk.

### THE CATHOLIC CLUB

Enjoyed an Impromptu Program at Its Meeting Last Night.

No set program had been prepared for the entertainment of the Catholic club last evening, but some of the members were induced to carry out an impromptu program, which, with social intercourse, made the evening a very pleasant one. Miss Helen Nolan read a paper on the early colonization of North America; Miss Early recited "The Wild Gypsy Girl;" Miss Meilink rendered a vocal solo and Miss Marie Uhlrich an instrumental solo.

### COUNCIL COMMITTEES

Close Up the Year's Work—The B. F. Wade Co. Will Print the City Reports.

The council committee on streets of the present council held its closing meeting last evening, and among other business awarded contracts for a large number of small improvements to the lowest bidders, as shown in the abstract of proposals printed in the Bee.

A petition was presented from property owners on Maplewood avenue from Virginia street to Delaware avenue asking for an asphalt pavement. The committee ordered the necessary legislation prepared.

Resolutions were approved for paving Bancroft street from Monroe street to the Lake Shore tracks; for turnpiking Nevada street from Oak street to Euclid avenue; turnpiking Robison street from Nevada to Woodville streets; turnpiking Albany street from Chase to Ontario; grading Erie street from Galena to Sandusky, and grading Grand street from Detroit avenue to the canal.

* * * *

The committee on printing considered the bids of the B. F. Wade company and the Blade Printing & Paper company for printing the annual reports of the city. The Wade bid was the lowest, and they were awarded the contract.

### DEATH OF LUCIAN B. GUNN.

An Old Resident of East Toledo Passes Away.

At 4 o'clock yesterday afternoon Lucian B. Gunn, of East Toledo, died at the residence of his daughter, Mrs. Henry Hamlin, 605 Cherry street, East Side. Mr. Gunn was 77 years old last November. About 25 years ago he moved from Perrysburg to the East Side, which has been his home ever since, and where he was owner of considerable real estate. He was engineer for C. A. King & Co. a number of years, and continued in their employ long after most well-to-do men of his age would have ceased from their labors, not quitting work until last fall, indeed. Through the winter he has been a great sufferer, as his so long active body broke down under diseases incident to old age, but his mind was clear to the last. His wife, who survives him, is also of an old East Side family, the Jennisons. He leaves three daughters, Sophie, wife of W. L. Marion; Lorraine, wife of Henry O. Hamlin, and Alice, wife of Charles Van Hynan, of Napoleon. The funeral will be from the Hamlin residence at 9 o'clock to-morrow morning, and the burial will be at Perrysburg.

### TWO FIVE-YEAR-OLDS

Missing—One is a Small Boy, the Other a Bay Colt.

A five-year-old bay colt belonging to Ceo. Alter broke away from a boy who was leading it this morning and has not since been found.

Tommy Ryan, a five-year-old boy, living at 825 Summit street, is missing.

It was suggested at the police station that perhaps the two five-year-olds had eloped.

### THE DRUMMERS

And Their Friends Will Enjoy Themselves at a Ball This Evening.

The United Commercial Travelers will give the last of their series of six social parties indulged in by the members and friends during the winter. This will be a masquerade ball at Odd Fellows' temple, and promises to be a delightful affair. A large attendance is expected, and the costumes will be many and varied.

### ANOTHER DEAL

Involving a Consideration of $14,000 for Up-River Property.

Still another big real estate transfer was made to-day.

John Kumler purchased 72 acres from Gen. Nelson, of Terre Haute, Ind., for a consideration of $14,000.

The property involved is located in river tract 16, and includes all that territory from the Half Way house 90 feet west, between the river and the canal. The electric road between Toledo and Maumee will be constructed through the tract.

### STOLE A CARPET.

A Man Who Didn't Stop at Small Things Gathered in.

People take it into their heads sometimes to steal very queer things, but it is seldom that a man ever lugs off a carpet in broad daylight. Wm. Miller was arrested this morning for so doing. An employe at the Burnett house was whipping a carpet, and leaving his work for a moment to go into the hotel, Miller yanked the whole business and dragged it down to a junk shop on St. Clair street, where he disposed of it.

### KNOW A GOOD THING.

Much About the Bee Said in a Very Few Words.

The Toledo Bee was out with 16 large pages last Saturday evening. The Bee is a rattling good paper and democratic to the core.—Ottawa County News.

Last Saturday's Toledo Bee contained 16 pages of interesting reading matter, news from all parts of the world, a variety of reading for both old and young.—Bloomville Independent.

The Toledo Bee of last Saturday reflects unbounded credit on the editors and managers of that progressive, wide awake paper.—Jackson Herald.

### CANDIDATE STEUER

Not the Man Whom Bower Is Telling He Is.

Henry Bower is circulating stories in his campaign that are unworthy of him. He will find that his efforts to win support by maligning people will not add to his vote. Mr. Steuer has handed to the Bee a card which will explode one of Bower's stories, and here it is:

Rumor has it that I am the son of Joseph Steuer, deceased, but such is not the fact, as I am the son of Meinard Steuer, of Nebraska avenue, and my father is still living. I make this statement to correct any misstatements that may be sent out.

LOUIS STEUER,
Candidate for Street Commissioner.

### SUPERINTENDENT WOODFORD

Meets W. & L. E. Firemen and Gives Them a Raise.

Wheeling & Lake Erie engineers, Northend Shepherd and O'Hedd called on Superintendent W. R. Woodford, of the road, together with firemen Sutton, Spencer and Smith, and laid before him requests for an increase in wages. They were pleasantly received by Mr. Woodford and matters were settled in a business-like manner as such matters should be.

The following raises were granted:
Switch engineers, 25 cents a day.
First year engineers, 25 cents every 100 miles.
Firemen, 15 cents for every 100 miles.
The committees appreciate fully the manner in which they were received.

### IN COURT MONDAY.

Causes for Hearing and Entry in Common Pleas.

There will be no motions published for hearing on Monday. After the case now on trial before Judge Harmon is concluded he will take up the motion docket and hear all motions in the order that they are entered on the docket.

The following causes will be for entry March 28:

31663—Whitney v. Halpin.
31881—John v. Van Hoesen.
32358—Toledo v. Campbell.
32426—Lane v. Van Hoesen.
32426—Schunk, H. & Co. v. Tol. Seine and Mineral Paint Co.
32557—Home Building and Loan Co. v. Lecklider.
32559—Same v. same.
32660—Vallette v. Meach.
32565—Chiesa v. C., H. & D. R. R. Co.
32761—Wales & T. v. Kaney.
32924—Wason v. Cone.

### BUILDING AND LOAN.

Another Strong Company Formed in Toledo—Officers and Directors.

Toledo is always glad to welcome outside capital, and especially concerns of undoubted financial standing. This week a Toledo branch of the Ohio National Building and Loan company was organized by Mr. Thomas H. Willmott, special agent of the company, assisted by Mr. Henry H. Cushing, the real estate dealer.

The success of the efforts of these gentlemen is amply shown by the following board of directors, which were elected by the stockholders at the meeting for organization, and which augurs well for the future success of the company:

J. H. Ainsworth, president; James M. Hall, first vice president; C. O. Brigham, second vice president; Charles S. Ashley, attorney; Henry H. Cushing, secretary; W. K. West, treasurer; L. K. Parks, J. H. Ainsworth, John W. Lee, E. O. Brown (alternate), appraising committee; Hon. J. W. Cummings, Edward Mitchell, J. W. Myers, B. F. Wade, Sam S. Thorn.

The state law of Ohio concerning building and loan companies under which this company is organized is very strict in all its provisions, but very properly fosters them, as they are recognized as potent factors in the growth of every community.

### AT THE Y. M. C. A.

Choice Program Prepared for the Boys and Their Friends.

A concert will be given to the members of the junior department of the Y. M. C. A. to-night at 8 o'clock in Association hall. The boys will be permitted to bring a friend. The parents and adult friends are also invited to be in attendance. Mrs. May Borden-Colburn, the concert violinist, (who recently came to the city from Boston) will participate, with other excellent talent. The following is the program:

Vocal Solo—"I Love Thee"—Mattei—Miss Susie Love.
Reading—"The Pickwickians on Ice"—Dickens—Miss Gertrude Teague, (assistant instructor Phelps School of Elocution).
Vocal Solo—"The Wagon"—Molloy—Mrs. A. D. Scammell.
Violin Solo—Selected—Mrs. May Borden-Colburn.
Solo—"The Nightingale Song"—Zeller—Miss Love.
Reading—"Mr. Caudle Has Lent the Umbrella"—Jerrold—Miss Teague.
Solo—"You May"—Wakefield—Mrs. Scammell.
Violin Solo—Selected—Mrs. Colburn.
Vocal Solo—(a), The Heart's Fancies—A. G. Thomas; (b), Marguerite—Denza—Mr. J. B. Poulin. A. D. Scammell and Mrs. T. S. Cook, accompanists.

### HE DIDN'T HAVE ANYTHING,

And the Other Man Didn't Have Anything and They Divided Up.

A laughable case was on in the police court this morning. Geo. Moor, a regular way-down-Beebe colored man, was being tried for stealing some $11. Evidence pointed toward him because he was unusually flush on Canton avenue immediately after the money was lost, whereas before that time he was about as broke as any nigger could be. When on the stand he manufactured some evidence that he thought would let him out. He said:

"Yas I war in de house dat night. Yas I war, an' I aheered somebody come in an' go up de stair' a thimp thimping an' I aheered 'um go into da room whar de money were an' I'm sho's as yo' live jedge dat 'at ar purson tuk it—sho's yo' live jedge."

The defendant had a partner in the barber business. It seems that they hadn't been making any money and the prosecution desired to show that such was the case. The partner was put on the stand and testified to the fact that they had done about a dollar's worth of business during the past week.

When asked why he took a partner when the business was so bad he explained as follows:

"Well you see he didn't have anything and I didn't have anything, so I took him in and gave him half."

Inasmuch as Moor didn't have anything and suddenly got something, he was given $10 and 10 days.

### THE COAL SITUATION.

Messrs. A. G. Blair and J. M. Ferris Have a Word to Say.

General Manager J. M. Ferris, of the Toledo & Ohio Central lines, said this morning that the reduction made in the rate on Pittsburg coal was 5 cents per ton less than last year and is now the same as the rate from the Ohio mines. He did not think that it would hurt business on the Toledo & Ohio Central.

General Manager A. G. Blair, of the Wheeling & Lake Erie, said this morning that while the Pennsylvania reduces the rate to the same in effect from the Ohio mines, as regards to the selling price of coal at the mines the same differential exists in favor of the Ohio coal, as last season, that is 25 cents higher for the Pittsburg coal. "Everything has been amicably settled for the season," said Mr. Blair. "There was a disposition to do a little fighting at the beginning of the meeting, but matters came to a climax in a very peaceful manner."

### JUDGE COCHRAN

Will Return to Toledo, Having Retired from Business at Wheeling.

Judge R. H. Cochran, of this city, retires to-day from the presidency of the Wheeling Bridge and Terminal company and is succeeded by W. B. Thomas, of Boston.

For 10 years Judge Cochran was at the head of what is now the Wheeling Bridge and Terminal Railroad company.

In 1882, '83 and '84 as president of the Wheeling & Harrisburg, and later as president of the Union Bridge and Railway company, he mapped out the great bridge and connecting terminal lines now in operation, enlisted capital in the project and carried it out successfully.

There are various reasons for the change. There were certain lines of policy that President Cochran and the stockholders could not agree upon, and then too, Mr. Cochran desired to devote himself to other interests that did not receive the attention they demanded while he was the executive head of the terminal company. He will spend most of his time in the future in Toledo.

### In the Senate.

Washington, March 25.—There was a much larger attendance of senators than usual at the opening of the session, and an appearance of grave preoccupation of mind manifest, especially on the part of the members of the committee on foreign relations.

The morning business was hurried through in a perfunctory way, and in less than half an hour after the journal had been read the senate, on motion of Mr. Sherman, went into secret session.

### WAS IT MURDER?

A Mysterious Case Reported From Indianapolis.

Indianapolis, March 25.—Last night James B. Swayne was arrested for drunkenness, but it soon developed that something more serious ailed him.

He grew rapidly worse during the night and at 8 o'clock this morning died.

An examination showed that he had been struck on the head with a blunt instrument, and the detectives have learned that he had domestic troubles, and that a male companion of his wife had had some trouble with him.

There is evidence that the men met last night and had a conflict. Swain was a prosperous farmer of Westfall, about 40 miles from here.

WAKE UP.

If you wake up in the morning with a bitter or bad taste in your mouth, Languor, Dull Headache, Despondency, Constipation, take Simmons Liver Regulator. It corrects the bilious stomach, sweetens the breath and cleanses the furred tongue. Children as well as adults sometimes eat something that does not digest well, producing Sour Stomach, Heartburn, Restlessness, or Sleeplessness—a good dose of Regulator will give relief. So perfectly harmless is this remedy that it can be taken by the youngest infant or the most delicate person without injury, no matter what the condition of the system may be. It can do no harm if it does no good, but its reputation for 40 years proves it never fails in doing good.

DO YOU WANT GOLD?

Cripple Creek is not a health resort. It is a wealth resort. Quite a difference! Location, near Pike's Peak, in Colorado. Gold—bright, yellow gold, is found at grass roots and in the rock formation.

Reliable experts claim this is to-day the richest camp in Colorado. Assays average $100 per ton, and have run as high as $5,000. One hundred people a day are now rushing to Fremont, chief town of the district.

The chance of a life-time is worth looking after!

You can get there quickly and comfortably by taking Santa Fe Route. Only line with no change of cars from Chicago, Kansas City and other principal cities to Florissant, nearest railroad station, with daily stages to Fremont.

### REGISTER SATURDAY.

Last call for registration in Toledo. Saturday is the last day. Attend to this duty, if necessary or you can not vote at the spring election.

Canada is bossing the Old Lady in this squabble about seals; that is evident. If the dominion is to bear the taunt of being a dependency, she purposes to make the mother country feel the obligation of her support.

To the unprejudiced mind, it must appear that the attitude of the President in insisting that the present treaty concerning the seal industry shall remain in force until the board of arbitration may render its decisions, is correct, strictly legal and wholly just.

"Surely," says Lord Salisbury, "two great friendly nations would scarcely dream of hostilities about a few sea animals, but—" "Certainly," replies President Harrison, "the United States and England would not come to blows over the paltry affair of one season's profits in sealing, but—"

The proprietors of the Beaver County Star have been pardoned out of jail. The jury who sent them there for libeling Matthew Stanley Quay will never be pardoned until they are forgotten. Will the Pennsylvania senator now please bring libel suit against the New York World?

The democratic city ticket is the best in Toledo and taxpayers who are interested in the reformation of the city government will consult their own interests by working for and voting the democratic ticket. No mistake about this matter. It is above politics. The republican ticket is bad. A change should be made in the council this spring.

Rev. Father McSweeney, of St. John's Catholic church, Bangor, Maine, preached a sermon last Sunday which created a sensation. He denounced the state of affairs in that city in regard to elections and rum, and said there was more drunkenness seen on the Bangor streets on election day than in the city of Boston with its 400,000 inhabitants. "Has it come to this," he asked, "that men can be bought by rum?' And the rest of the country will ask, "Has it come to this, that rum in prohibition Maine can send more men reeling than whisky in wicked Missouri?"

### A RADICAL LABOR PLATFORM.

The British workman has of late years taken to the study of science of government with a view of finding out its duty to him and his class. Recent events and agitation indicate that he will go much further in demands upon the government than his American brothers do. Tom Mann, next to John Burns the greatest leader in the "new union" movement in England, has formulated a "labor platform" which is published in the February number of the "New Review." He says

"What we may expect to find accomplished in the immediate future, with or without legislation, is the abolition of systematic overtime, the fixing of a forty-eight-hour maximum working week, the abolition of the half-time system for children under thirteen years of age, the withdrawal of wives from mills and workshops, and some kind of communal responsibility recognized, making provision for those who are dislodged from their ordinary occupations by changes of fashion, of seasons, or methods of manufacture."

Surely the sting of this exposition lies in the last clause, fixing upon the government the "communal responsibility" of providing for men thrown out of work by reasons beyond governmental control.

He says further: "We want and must have a ministry of labor as a department of state, part of whose duty it shall be to exercise a controlling force in the matter of adjusting the difficulties brought about by intermittent employment; such department, of course, receiving all possible assistance from the trade societies." * * * And lastly he says: "We demand that the slums be cleared out, that healthy dwellings be constructed at reasonable rents, that town life be made tolerable, even comfortable, and we demand that poverty be banished."

Here is a state socialist program ultimating in a condition of communism. Here is a program with a vengeance! It is easy to say, and it is probably true to say, that it will not be carried out, or attempted. Yet as standard a magazine as the New Review has seen fit to solicit and to publish Mr. Mann's views; member of parliament take up Mann, Burns, Tillett and the "new union" movement; and it is probably safe to hazard the prediction that more governmental regulations along the road to socialism will be made in England in the next ten years than in all the previous years of the history of that nation.

### THE TOLEDO ASYLUM.

The excuse that the Toledo asylum needs reorganizating in the interest of anything but republican politics and republican office holders, is too flimsy to deceive any sensible person. The only charge that has ever been specified to substantiate such a declaration was the one made by a Toledo evening organ, that a man discharged as cured, had a return of insanity and committed murder. That all this happened before Superintendent Tupper came to the asylum, rather takes the force out of the argument. The organ has never had the decency to apologize for its falsehood or error, whichever it may have been. The Bee was opposed to the removal of Dr. Tobey because it honestly believes the institution for the insane should not be made the football of politics. For the same reason it objects to the removal of Dr. Tupper. Visitors and committees of inspection have made no reports that bear out the political gabble about a necessary change. It is a common, a contemptible and an easy thing for an unscrupulous partisan sheet to do a good officer incalculable injury by its "they say" and "it is said."

The hypocrisy of republicans, from Gov. McKinley down, in their pious talk about rescuing the asylums and like institutions from the grasp of greedy politicians, is made every day evident. The Toledo asylum affair is one more proof. That the proposed successor of Dr. Tupper may be a good man in such a place need not be considered, pro or con. He has had no experience and his ability has to be proven. That there is no reason besides a partisan political one for overturning the asylum force from superintendent down, so soon again, everybody knows who has any knowledge of the matter or any interest in it.

## 16-Sixteen Pages-16

### To-Morrow.

The Bee will contain sixteen pages to-morrow.

It will be the most complete newspaper ever printed in Toledo.

Telegraph news from all quarters of the globe. The Bering Sea trouble is becoming dangerously interesting and you can best keep posted by reading the Bee.

Prof. Foster's weather predictions, on the ninth page of to-morrow's Bee, will tell you all about April weather.

A lively, bright and reliable sporting page.

Choice fashion tips and all the latest fads of the day.

The present interesting status of the Sherman and Foraker republican fight in Ohio.

The usual bright page for the Bee Hive club, popular wherever the Bee circulates.

Peter Buzzer has something interesting for the children.

Stories of adventure, and above all, all the news of the day.

Brightest and best.

Sixteen pages to-morrow.

Only two cents.

### AMERICAN FIRMNESS.

The last letter of President Harrison to Lord Salisbury on the Bering sea question is a dignified insistence of American right that must be maintained. It is no longer a question for either government to determine of and for itself, since both have agreed to arbitration; but pending such arbitration this government is right in demanding that England shall keep its poachers from fishing grounds the status of which must be settled by friendly powers to whom the matter has been referred. President Harrison is not only right but his expression of the American position must impress England with the extreme folly of violating the agreement already made. The power of the United States is behind the President's demand, and American manhood and valor will enforce the observance of the agreement. If worse comes to worst England will rue the day it provoked another war with the United States. Its boastful power on the high seas will be a temporary advantage only. American cruisers will cripple its merchant marine and prostrate its home industry. And when the arbitrament of arms is concluded England will have no more American colonies worthy the name. The United States does not court trouble, neither does it fear the consequences of war. This country can whip England now much easier than in 1776 and 1812.

### FIATISM CHECKED.

The first tilt between honest dollars and silver speculation resulted in disaster to the latter. The anti free coinage men in congress succeeded Thursday in preventing the passage of the Bland bill, and the author was finally compelled to move an adjournment, which took the measure to the calendar. This places hundreds of other bills ahead of it, and unless the committee on rules recommends taking it out of its order, and the house acquiesces, the bill will not be reached for weeks and months. Of course Mr. Bland will resort to the rules expedient, but he must run the gauntlet of another vote to have the report sustained. The friends of honest dollars will take courage from Thursday's vote.

### IN A GOOD CAUSE.

Mrs. Grover Cleveland Making Use of Her Talents.

Lakewood, N. J., March 25.—Mrs. Grover Cleveland gave a dramatic entertainment at the Lakewood hotel this afternoon for the benefit of the kindergarten society of which she is the vice president. The attraction was "Caste," performed by a company of New York artists, Miss Marguerite St. John impersonating "Polly Eccles," and superintending the production.

A special train came from New York and the visitors were entertained by Mrs. Cleveland at her cottage preparatory to the event.

### IRON COMPANY EMBARRASSED.

Allentown, Pa., March 25.—Executions for $135,000 were entered yesterday against the Lehigh Iron company. Stagnation of trade and the recent break in prices are the causes assigned for the embarrassment of the company.

### LECTURE BY EX-PRESIDENT HAYES.

Gambier, O., March 25.—The second entertainment in the Kenyon lecture course was a lecture by ex-President R. B. Hayes, '42, on "The Boys and Men I Knew at Kenyon."

For an hour and a half the ex-president held the large audience intensely interested by anecdotes and short accounts of the great work done by Edwin M. Stanton, Salmon P. Chase, Stanley Matthews, David Davis, Henry Winter Davis, and others of Kenyon's sons.

### CAPTAIN BATES DEAD.

Delaware, O., March 25.—Capt. George Bates, one of the prominent citizens of this place, died suddenly from apoplexy at the age of 74.

### MENTIONED ON THE STREETS.

That John B. Ketcham's rigs are among the nattiest in the city.

That the ball club will play Sunday games when the season opens up.

That the policemen are brushing up their helmets so they may look dandy.

That Louis Steuer will be Toledo's next street commissioner, Bower not being in it at all.

That the Pittsburg coal magnates dealt Toledo a hard blow at their meeting this week.

That Lent is moving along at a rapid pace, but not too fast for society's devotees.

That several Toledo attorneys are interested in a big law case now in progress at Sandusky.

That Saturday's 16-page Bee is only a reflex of a live and enterprising city. Be sure to get one.

That the new church building for the Broadway Methodists is almost a sure thing; hope so.

That the directory agents are pursuing their work of compiling names for the book of 1892-93.

That the Pythian Sisters' organization is gathering force, having over a hundred members as a nucleus.

That to-day is the closing day before the spring vacation in the public schools, which is gratifying to the pupils.

That the factories to be secured for the new tract of ground purchased by a syndicate yesterday will be welcomed.

That Fred Schulty is receiving the support of many good republicans in the First ward in opposition to Phil Hassenzahl.

That ex-Senator Geyser finally made it as asylum trustee, and now the band will play its reorganization notes with great zest.

That there will be a little tripping of the light fantastic at the O. Y. C. to-night, John Gunckel leading the grand march—to the refreshment room.

That at the rate cases are decided in the Ohio supreme court, the city's gas case will be reached in about three years, if not advanced on the docket.

That Councilman Morganthaler does not expect re-election in the Fourth ward, but is making the plea to the voters not to beat him too badly. It will not work.

That Oliver Hall is wondering whether he will pull through in the Third ward. Comparatively few of the men who voted for him in the caucus reside within the limits of the ward.

That Rev. W. C. Hopkins' views on the public schools are not concurred in by a very large number of people, many of whom do not think he has tenable ground for his broad statements.

That Street Commissioner Bower is working a great force of employes at present, and is not particular just where the money is to come from to pay them, a question which has bothered him considerably up till a few days before nomination.

That the printers of the city are having a little excitement of their own carrying on an election for two delegates to represent the union at the next session of the international body, which meets in Philadelphia, and is the highest honor in the gift of the members.

## THE LATE BISHOP BEDELL.

### Tribute From the Standing Committee of the Diocese,

**In Which the Deceased Prelate's Eminently Good Qualities Are Set Forth in Glowing Terms.**

At a meeting of the standing commitee of this Episcopal diocese, the following tribute was prepared and approved relative to the late Bishop G. T. Bedell. The document is signed by the six members, including Mr. F. B. Swayne, of Toledo:

"As we think of the eminent position of Bishop Bedell in the church of God, and of his varied and fruitful labors for the advancement of that church, we could easily dwell upon the visible monuments to those labors to be found in the educational and parochial institutions of Ohio, founded, enlarged or strengthened through his efforts, and in the Christian literature of our country permanently enriched by his pen; but to-day our uppermost thoughts are of the gracious life which it was such a delight to know, and of the spiritual fruit which must follow from the work and influence of that life.

"For more than thirty years the genial kindliness, the broad and tender sympathy, the unstinted charity, the holy counsels, the abundant labors and the self-denying zeal of this faithful servant of Christ, were lovingly bestowed upon the diocese of Ohio for the blessing of souls and the extending of the kingdom of God. In the tender and well chosen words of our present bishop: 'He walked before his people blamelessly; he won from all their affection and regard. He preached Christ and Him crucified with an eloquent tongue and a persuasive appeal. He guarded the interests of the church committed to him by a patient and tireless administration.'

"He was an example of nobleness, of liberality and of Christian consecration to the work of winning souls to the Master. And now he rests well and peacefully in the paradise of God. 'He has fought a good fight, he has kept the faith,' and with confidence we may say that he has entered into the crowning reward which his Master gives.'

"We devoutly thank our Heavenly Father for having granted to us the great privilege of personal association with the life of Bishop Bedell. The touch of that life had blessing in it. During all his years among us that life was recognized as a power for good throughout Ohio, and throughout the whole church; and we assuredly believe that through all the years to come the influence of that life will be a continuing and every increasing power for faith and righteousness in the souls of men.

"Inseparably blended with our loving memories of Bishop Bedell are most grateful remembrances of the rare virtues and gracious deeds of his noble wife.

"For ourselves and for the people of our diocese we extend to her assurances of heartfelt sympathy and endearing regard. And we pray that God will comfort her with holy memories and heavenly hopes, with the consolation of His divine promises and with the sustaining power of His abounding grace."

### CURRENT COMMENT.

Congressman Mills, it is said, has now a clear field for the Texas senatorship. The mills of the gods grind slowly, but Roger Q. gets there all the same. Count one for Cleveland.—N. Y. Mail and Express.

Texas honors herself in honoring Roger Q. Mills by an election to the senate, and that body secures a clear gain to its membership both in ability and experience in public affairs in the process.—Philadelphia Times.

Roger Q. Mills, the distinguished tariff reformer and author of the Mills bill, which practically represents the position of the democratic party on the tariff question, has been elected United States senator by the legislature of Texas. His election is a triumph for the tariff reform element.—Ft. Wayne Sentinel.

The unanimous election of Roger Quarles Mills yesterday as United States senator from Texas was a tribute of regard which any man might be proud to receive. A host of New England congratulations will be sent to the gallant champion of tariff reform. He is sure to make himself a power in the senate, as he has in the house of representatives.—Boston Globe.

Hillism and free silverism could rasp and turn down the man who stood for the true democratic issue in congress, but Texas turns around and sends him back to the other end of the capitol at Washington; and the same legislature that does it tables a resolution inviting Hill to come there on his presidential drumming tour, with a completeness that lays it out flat. * * * Mr. Mills' election to the senate is a good thing. It is, besides, a sign of the times.—Indianapolis News.

Roger Q. Mills has moved out of the old house into the senate, or will move when his credentials arrive from Austin. We congratulate the Texas statesman on his being raised to the American peerage. We congratulate the senate on so valuable an acquisition as Mr. Mills certainly will prove to be. Further, we congratulate the great state of Texas on its wisdom in selecting a man so eminently capable of representing her in so responsible a position as the United States senate.—Chicago Mail.

The election of Roger Q. Mills to the United States senate is a deserved recognition by the state of Texas of her most distinguished citizen and of the great principle of tariff reform so long and ably advocated by this foremost of southern statesmen. The house will miss him, but his election to the higher body is a long step toward restoring the latter to the proud pre-eminence among the deliberative assemblies of the world which it held during the days of Clay and Webster and Calhoun.—Indianapolis Sentinel.

## IN LABOR CIRCLES.

### Editor Weismann Talks About Labor Unions.

**Religion and Politics Not in It—Regular Meeting C. L. U.—Employment Bureau Report—Notes.**

The speaker secured by Bakers' union No. 66, Mr. Weismann, of New York, editor of the National Bakers' Journal, spoke in Carpenters' hall last evening, under the auspices of the Central Labor union. A number of phases of the labor question were dwelt upon, and what was said gave evidence that Mr. Weismann is a constant and honest student of industrial conditions. He warned the labor organizations that their success depends upon their steadfast attention to the matters for which they are organized, and their avoidance of issues outside their legitimate work.

"Keep politics and questions of religion outside your unions," was Mr. Weismann's advice. He said hirelings of political parties and the representatives of mischievous secret organizations were in the unions of this city for the purpose of sowing the seeds of dissension and breaking up the unions which but for them would be powerful enough to maintain the rights as workmen of their members. The animus of Mr. Weismann's remarks concerning religion was not to be mistaken, and the advice is good.

"You will find," he said, "these men who are so prominent in guarding the affairs of others in a religious way are rascals who have been driven out of shops and cities on account of immorality or for breeding dissension. Let us, regardless of religion, keep to our duty and stand united against the common enemy."

Mr. Weismann is in the city endeavoring to adjust the trouble between the union bakers and their employers, and he made a strong appeal in behalf of these men to the other organized workmen whom he addressed last evening.

Regular C. L. U. Meeting.

A regular session of the Central Labor union followed Mr. Weismann's address. New delegates were received from the Butchers' union and the Boilermakers' union, and a good deal of routine business transacted. Action was taken condemning the Boyer garnishee bill now before the Ohio assembly, and the secretary was instructed to write the representatives from this section of the state and ask them to vote against it.

The committee having in charge collections for Albert Albrecht reported receipts as $22. Delegates from the Brewers' union reported an advance of a dollar a week on their wages, and that they had secured 20 minutes for lunch.

Superintendent Murphy's Report.

The following is the report of the Free Employment bureau, for the week ending to day: Situations wanted, males, 52; females, 36; help wanted, males, 14, females, 39; situations procured, males, 9; females 17.

An Interesting Discussion.

The debate upon suffrage societies v. labor organizations, which the sisters of Joan of Arc assembly have arranged for, promises to be interesting and well attended. It takes place to-morrow evening in Clark's hall, Cherry street, near Summit, and is open to all, men or women, who may care to attend. The members of women's labor organizations, of suffrage associations and women's clubs generally, are cordially invited.

### OHIO SUNDAY SCHOOL CONVENTION.

Lima, March 25.—The Sunday school workers of Ohio will be pleased to know that a rich treat is in store for them in the state Sunday school convention to be held in Lima June 7 to 9.

The state executive committee, 12 in number, have just held a very enthusiastic meeting in this city, and arranged the details for the coming convention, which promises in point of numbers, program, and talent, to surpass any similar convention ever held in the state. Free entertainment is promised the delegates.

## SAVE YOUR PENNIES.

### Another Savings System Introduced in Toledo.

**It Is the Household Savings Bank System and Will No Doubt be Popular—What the Plan Involves.**

Air Line Junction comes to the front with an enterprise which is certainly novel in procedure and conducive of good results.

It is a savings system which was organized last night, to be known at the Household Savings Bank company.

The new departure will be operated in connection with the Ohio Mutual Building and Loan company, located at Air Line Junction, which was organized last fall, and has been doing a lively business ever since.

The officers of the loan company are: D. E. Jefferson, president; Geo. C. Dunham, vice-president; Lincoln Smith, secretary and treasurer; F. W. Rickenbaugh, attorney; W. T. Myers, general manager; board of directors, D. E. Jefferson, Aaron Cuesbrough, F. W. Rickenbaugh, Lincoln Smith, Geo. C. Dunham, Chas. Marlow, W. S. Walker, G. H. Harrod, M. E. Calkins, S. A. Court.

The object of the system is to encourage small savings, and it is operated on a most simple and ordinary basis, one that any child can take an interest in and keep account of. Instead of those who desire to become interested in this system carrying their savings to a bank or attempting to save it otherwise, the company supplies them with a savings bank.

This bank is in the form of a cottage house, with windows, doors and all. It is made of bronze and nickel, and is quite ornamental in appearance. The interior is divided into four separate apartments, each with an opening to admit the savings. These apartments are secured by neat nickel plate Yale locks, and the company holds the keys. When the money is deposited, it becomes at once the property of the bank distributing, just as much as though it were deposited in the main banking house. The collection of it will, of course, be regulated by the judgment of the distributing bank. The bank collector will go around once a month and count up the deposits, entering the same upon a pass book held by the depositor, and upon the bank memorandum book which he carries with him.

An account may be opened up for each apartment, to be utilized by four members of a family. On all deposits the company pays six per cent. interest, and the account may be closed at any time the depositor desires.

This is especially advantageous to children, and the system will undoubtedly become popular in Toledo. The system is under the direction and a part of the Ohio Building and Loan company, and its officials are directly responsible for all money deposited in their care.

The company has ordered 500 banks, and will distribute them as soon as they arrive.

The system is in operation at Detroit and last year collected over $120,000 in this way.

### WAGES INCREASED.

## THE POSTAL LAWS

### Passed on by a Committee of Postmasters,

**Who Make Several Recommendations to the Congressional Committees for Improvement.**

Postmaster Brown has returned from Washington, where he was in response to a call issued by the postmaster general for a conference of first and second class postmasters of the United States. The session continued two weeks, and much business was transacted in that time.

As usual, Mr. Brown kept an outlook for the interest of Toledo, and was honored by the appointment of chairman of the committee on business and of the permanent committee.

Through the diligent efforts of Postmaster Brown the Toledo office in a few days will be supplied with a mailing machine capable of mailing 30,000 letters an hour.

The clerical force will be increased four men.

The conference submitted the following communication to the congressional committee, which is a brief statement of the business transacted during the session:

The late conference of postmasters of the first and second class, composing representatives of more than one-half of the postal revenues of the government, before its adjournment, appointed the undersigned a committee to formulate the recommendations of the conference and present them before your honorable bodies, to the end that the same may receive the speedy sanction of law. We have examined such bills now pending in congress on subjects considered by the conference, and where we have found them to be in harmony with the views of the conference, have approved the same, and where no such bills were found to be pending, have taken the liberty to present such to you.

We herewith submit a list of the same, viz:

1. Postal Savings Depositories.—An act to encourage postal savings, especially in districts remote from money depositories; to invest the same in government, state, county, township, school and municipal bonds, and to divide earnings among depositors.—Original bill.

2. Postal Telegraphs.—A bill to authorize the establishment of telegraph service, and for other purposes.—S. B. 2492 and resolution.

3. Utilizing Telephone for Postal Purposes.—Suggestion of appropriation of $10,000 therefor. Original to be added to appropriation bill.

4. A bill empowering the postmaster-general to appoint a commission to examine into and report upon the expense, cost and advantage of pneumatic tubes and other systems for the rapid transmission of mails.—Original bill.

5. A bill to amend the postal laws relating to and authorizing the issue of fractional postal notes, of fixed denominations up to one dollar, and the issue of the same without fee, at all postoffices.

A bill to amend the postal laws so as to prohibit advertising sheets from being transmitted as second-class mail matter, limiting the number of sample copies that may be mailed at second-class rates, and defining subscription list.—Original bill.

Resolution approving H. R. 5067, a bill to amend the postal laws so as to prevent certain classes of books from being transmitted through the mails as second-class matter.

Resolution approving H. R. 383, a bill to reduce the postage on fourth-class matter.

A bill to create a rural postal delivery and collection system. Original bill.

Resolution indorsing H. R. 380, and S. 524, being identical bills, a bill to extend the free delivery system of the postoffice department in cities of 5,000 population or over, and for other purposes.

A bill to indemnify the sender of registered matter lost in the mails.—Original bill.

A bill to fix the compensation of substitute letter carriers and define their duties.

Resolution asking the appropriation of $300,000, or so much thereof as may be necessary to carry out the provisions of an act approved October 1, 1890, granting leave of absence to clerks in first and second-class postoffices.

Resolution approving the principal provisions of S. 1677 and H. R. 3608, a bill for the classification of clerks and other employes in first and second class postoffices, and for fixing the salaries of the same.

A bill to fix the salaries of fourth class postmasters.—Original bill.

Resolution approving the provisions of H. R. 376, entitled a bill to revise section 1754 R. S., relative to the employment of persons discharged from the military or naval service.

A bill to create a class of collectors of mails in free delivery offices of the first class, and the eligibility of honorably discharged union veterans of the military or naval service, without civil service examinations for such positions.

Resolution recommending the substitution of a schedule of fees for money orders, in place of those proposed in H. R. bill 4069.

A bill providing street car fare to special delivery messengers and limiting the same.

Resolution protesting against defraying the cost of civil service local examining boards out of funds appropriated for postal service.

## I LOVE YOU.

A Christmas under Spanish skies!
A day of languor, love and dreams,
That all my soul beautifies
With sweetest ecstacy's extremes!
W hatmagic charms have conjured up
Such fantasies of deep delight?
I drain a Spanish Circe's cup.
And thrill to read in eyes of night:
"I love you, and I love but you.
I love your hair, your eyes, your mouth,
I love you as the flower its dew.
I love as lotus loves the South!"

A villa in a verdant vale,
Blue peaks somnolent in the sun,
A bower of blooms, afar a sail,
The white waves breaking, one by one.
I lounge at ease with cigarette.
My lady's face is very near,
And oft these words I'll ne'er forget
Are breathed with passion in my ear:
"I love you as the stars love night.
I burn with life but in your arms,
I love you as the sun its light,
You are my world and all its charms!"

The music of a mandolin
Blows faintly from a distant tower
A melody that softens sin
And sanctifies its bridal bower:
Beyond, a white bird sinks and dips,
And wheels above the sun-kissed sea—
I follow not, but list to lips
That whisper love alone to me:
"I love you as the night its pall.
I love you as the North its frost,
You are my hope, my soul, my all.
Without you all my life were lost!"

O happy day in sunny Spain!
O blissful hours so swiftly spent!
Alas! when shall I know again
Such luxury of sweet content?
And sweeter than the lotus blooms,
And sweeter than the jasmine's breath,
Far sweetest of the South's perfumes
My lady's lip that whispereth:
"I love you as the bloom its blush
I love you as the sky its blue,
I love you as the dawn its flush.
I love you, and I love but you!"

One novelty in the way of electric traction on the St. Louis and Suburban Railway, now in successful operation in St. Louis, Mo., is the application of electric motors to a United States mail car, which makes regular trips over the entire line, distributing and collecting the mail at the different railway stations, as is done on steam railways. This car is of the same length as an ordinary steam railway mail car, and is equipped with double trucks with thirtysix-inch wheels, a Thomson-Houstan motor of fifteen horse power capacity being connected to each truck. A very high speed is attained and the delivery and collection of mail is made without stopping the car as in steam service. The Thomson-Houston Company claims that this is the first mail car that has been electrically equipped in this or any other country.—Western Electrician.

# THE POISONED WINE.

The court of Charles II, king of England, was the most degraded and licentious of any monarch in the world. The persons who composed it were, with exception, polluted beings, who drank the dregs of the cup of pleasure. The exception was Herbert de Vere, the young earl of Heathcote Manor.

There was a woman in the court who gazed on the young earl with eyes of love. Her name was Madame de Victor. She worshipped Herbert, but he slammed her.

Madame de Victor was seated in her splendidly furnished parlor engaged in writing. At last, pushing aside the writing materials, she exclaimed—

"There, it is finished. I hardly think Herbert will reject my love. If he does, then I will show him that I can hate."

She folded the missive neatly, rang a tiny bell, and a servant appeared.

"Take this note to Herbert de Vere, and return instantly," commanded the madame.

The servant shortly reappeared and announced the name of de Vere.

"Admit him."

Herbert entered the room, and the woman advanced and greeted him warmly.

"Take a seat, Herbert, for I have much to say," she said, as she pointed to a finely-carved chair.

The earl seated himself and asked—

"Well, madame, cease this raillery, and inform me why you wished my presence here."

Her bosom rose and fell, and her eyes were fixed upon the earl.

"Herbert, you are here to hear a declaration of love from me. Oh, Herbert, I love you—wildly, madly love you!"

A smile of scorn flitted across his face.

"Madame de Victor," he said, "I am sorry that you love me. I cannot, dare not love you."

"I shall die of a broken heart, then;" and she buried her face in her hands, and sobbed loud.

Herbert smiled as he looked upon the hypocrite.

"Then you must die of a broken heart, for I can never love you, madame," said he.

"I will teach you, then, that I can hate as well as love. Beware of me! Now I hate you!"

When he was gone Madame de Victor threw herself on a sofa and burst into tears; but they were tears of anger.

"Yes," she exclaimed, "I will show him that I can hate! He loves Kate Clearfield, but she shall not be his."

She arose and went to her wine cellar; it was filled with bottles of the choicest wine arranged upon shelves. She took a dust-covered bottle from a shelf, and set it on the table before her; she drew the cork, and taking a paper containing a small white powder from her pocket, she emptied it into the bottle, and the cork was replaced.

She took the fatal bottle and left the cellar. In her boudoir she penned the following note:

"Dearest Herbert—I send to you a bottle of rare Burgandy, drink my health ere you retire. I am thinking of you and of happier days. Your own KATE."

At 7 o'clock she called her servant and bade him take the wine and note to Herbert de Vere.

The young earl was seated in his room, engaged in reading. The servant entered; put the deadly article on the table.

He had scarcely closed the door when Herbert sprang to the table and grasped the sweet-scented note.

"It is from her, for it is scented with her favorite perfume," he joyfully muttered as he tore the note open and eagerly devoured its contents.

He smiled as he closed it and thrust it in his bosom.

"God bless my darling Kate. I never touch the wine cup only at her bidding, and I gladly do so to-night."

He took a wine cup, filled it with the fluid, and raised it to his lips; paused a moment and exclaimed:

"Here's to the health of the fairest lady in England, my own darling Kate."

At that moment the door flew open, a young girl rushed into the room and dashed the cup from his lips.

She raised her eyes to him and said in a tremulous voice:

"I am Ida Faulkner, and live with Madame de Victor. I witnessed your interview with her and feared for your safety. I saw her go to the cellar and take that bottle from the shelf and pour into it poison. She penned a note to which she signed the name of Kate Clearfield, and sent it here by a servant. I tell you to leave England. Madame de Victor will yet succeed. She will have you assassinated."

WEARY MOTHERS

LOOK AT THIS.

Are these not healthy and bright children? Their appearance does not misrepresent them; they are both healthy and bright. They are the son and daughter of Mr. J. P. Wiley, of Dorchester, Mass., and he has an interesting story to tell in regard to them. The story is as follows:

"In 1885 my wife, accompanied by my little boy, at that time 11 months old, was visiting relatives in Scranton, Penna. The little fellow was suffering untold agony cutting his teeth. My wife was told to try Dr. Hand's Teething Lotion. The effect was magical. It did not stupefy the child, as most remedies of this character do; it simply soothed the pain of the burning and aching gums. I might write a volume, had I the time, praising this remedy, and then not express my feelings or do it justice, it is simply marvellous. After her return to Boston she wanted another bottle, but I found that it was unknown in this city. I corresponded with Dr. Hand, and received in reply a sample of each of his remedies. I used them on both my children, recommended them to all my friends, and have yet to find the person who, after using the remedies, especially Teething Lotion and Colic Cure, that could not praise them. People may say, and have said to me: 'Oh, there must be something in that Teething Lotion that affects a child's brain.' In reply to this, I will say I have two children, a boy and girl, who have been treated with Teething Lotion since time of beginning to end of teething, and I challenge any person to furnish two with any clearer brains. I cheerfully recommend them to parents who love their little ones."

A little book, illustrated, full of sense and suggestion, or sample bottle, will be sent to any one in the land, FREE.

## CATARRH OF MIDDLE EAR.

### The Beauty and Utility of the Ear When Healthy.

### Its Ugliness and Worthlessness When Diseased.

A PECULIAR CASE.

On February 16, 1892, The Pe-ru-na Drug Manufacturing company received the following letter from R. Walter Brady, Cascade, Ark.:

"I take pleasure in recommending your medicines. The benefit I have derived from the use of your medicines could not be bought for any amount of money. When I was about 5 years old I had a long spell of typhoid fever and pneumonia. After I got well I took the running at the ears, and for 14 years I was almost an invalid. It was so continual and so offensive that I excluded myself from all society. I could do nothing, was unfit for manual labor, and I had almost come to the conclusion that it would be better if I were dead. My father consulted several doctors. They said I had an abscess in my head. I tried several kinds of medicines, but they were of no avail; so I gave it up, and thought it might be that I would outgrow it. After I had borne it for 14 years I received a pamphlet from Dr. S. B. Hartman, entitled 'The Ills of Life.' I had given up all hope of ever being cured, but would have tried anything. I wrote to Dr. Hartman to know what he would charge for taking my case on the insurance. He wrote me that the remedy was simple and that I could cure myself. After using $17.00 worth of your remedies I found I was entirely cured. I am now as active, stout, and hearty as any young man could wish to be. The world could not buy my fortune. I recommend to all as the best medicine sold."

When chronic catarrh passes up the eustachian tubes into the middle ear it sets up an inflammation which is liable to terminate in suppuration or the formation of matter. The matter accumulates and presses on the membrana tympani, producing earache, and in many cases ruptures the ear drum, when the matter escapes out of the ear externally, generally called running at the ears. Running ears, if neglected, not only result in deafness, but may cause death. In long-standing cases the hearing will likely be impaired, owing to injury of the delicate parts of the ear. It is not always that chronic catarrh of the middle ear produces running ears, but often a dryness of the mucous lining, which gives rise to cracking or snapping sounds, and in some cases a peculiar pressure or full feeling inside the ear.

In recent cases, of not more than two years' duration, Pe-ru-na taken as directed on the bottle, will effect a cure in a few weeks or months. The cure is hastened by gradually increasing the dose recommended on the bottle to a double dose. But cases like the above, where the discharge from the ear is of long standing, and especially if it be of a fetid odor, La-cu-pi-a should be taken according to the directions on the label until the system is thoroughly cleansed, after which the Pe-ru-na will complete the cure. There need be no failures to obtain a cure in a single case. A cure is within reach of all.

Those desiring further particulars should address The Pe-ru-na Drug Manufacturing Co., Columbus, O., for The Family Physician No. 2, a treatise of 32 pages on catarrh in all varieties and stages, consumption, la grippe, coughs, colds, and all other climatic diseases of winter and spring. Sent free to any address.

MEDICAL TESTIMONY.

W. Thornton Parker, M. D., Recorder, Association of Acting Assisting Surgeons of the U. S. army, writes:

"Salem, Mass., March 23, 1891.

"When at Stuttgart, Germany, during the winter of 1881-82, I was suffering from a severe attack of bronchitis, which seemed to threaten pneumonia. I met, at the Hotel Marquardt, Commander Beardslee, of the United States navy. In speaking of my sickness, he remarked: 'Doctor, you can cure that chest trouble of yours by using an Allcock's Porous Plaster.' 'That may be true,' I answered, 'but where can I get the plaster?' 'Anywhere in the civilized world, and surely here in Stuttgart. Whenever I have a cold I always use one and find relief.' I sent to the drug store for the plaster, and it did all that my friend had promised. Ever since then I have used it whenever suffering from a cold, and I have many times prescribed it for patients.

"The Allcock's Plaster is the best to be had, and has saved many from severe illness, and undoubtedly, if used promptly, will save many valuable lives. Whenever one has a severe cold they should put on an Allcock's Plaster as soon as possible. It should be placed across the chest, the upper margin just below the neck; some hot beef tea, or milk, will aid in the treatment.

"This is not a patent remedy in the objectionable sense of that term, but a standard preparation of value. The government supplies for the U. S. army and Indian Hospital stores contain Allcock's Pasters, and the medical profession throughout the world are well aware of their reliability and excellence. I shall always recommend it, not only to break up colds, but as useful in allaying pains in the chest and in the back. It is a preparation worthy of general confidence."

Particulars of the behavior of the field telephone system in the French autumn maneuvers have now been published. Magneto telephones were used, as no delicate microphone or battery is required with them. The transmitter was held in the hand and the receiver was affixed to the "kepi." Combined receivers and transmitters were also employed. A bare bimetallic wire 0.6 millimeters in diameter, was unrolled from a drum and laid out of harm's way on hedges, branches, walls, and in trenches. A line, 23 Kilometers long, was thus laid with the addition of ten posts, in five hours; speech was good, and the whole was taken up in an hour. During a sham fight a cavalry division passed over a long line without interupting the communication. A bayonet, stuck in the ground, made a good earth; so did the body of a cavalry horse, if the wire was attached to the bridle.

J. D. Vickery and E. H. Smith were chosen superintendents of agencies, and Messrs. Laning, Bostwick and Smith were appointed a committee to visit Chicago and investigate the offers of sites already made to the company. They left for Chicago last night.

The Lake Erie Tobacco company, formerly of Cleveland, now of Norwalk, recently incorporated and reorganized, have just chosen the following officers: President, W. W. Graham; vice president, A. C. Greene; secretary, W. H. Benson; treasurer, C. H. Stewart; directors, C. A. Wilson, Toledo; B. Nyman, Dr. A. D. Osborn, Dr. E. N. Hawley, W. W. Graham, A. C. Greene, C. H. Stewart.

It is not the extremes of heat and cold so much as the sudden changes in temperature that cause certain climates to be unhealthful. When, however, the system is invigorated with Ayer's Sarsaparilla, these changes are rarely attended with injurious results.

## TO HEAD OFF SHARKS.

Method to Prevent Improper People from Landing.

New York, March 25.—The immigration authorities have begun a new system in regard to determining who are undesirable immigrants. According to the orders of Gen. Nettleton, the assistant secretary of the treasury, no more pauper immigrants shall be allowed to land on the assurance of any society that such an immigrant will not become a public charge. To determine who are undesirable immigrants instructions were given to the inspectors yesterday based on orders from Washington that any immigrant who did not have a railroad ticket to his destination, and did not possess $10, was undesirable.

Many of the noted sanitariums and famous health resorts are using Garfield Tea in their treatment of constipation and female weakness.

MISSOURI G. A. R.

Chillicothe, Mo., March 25.—The state encampment of the Grand Army of the Republic to-day elected officers for the ensuing year as follows: Charles W. Whitehead, of Kansas City, department commander; Louis Benecke, of Brunswick, senior vice commander; and J. E. Platt, of Kensington, junior vice commander. The next encampment will be held at Joplin, Mo.

MARYLAND AT THE FAIR.

Annapolis, Md., March 25.—The house to-day passed the senate bill appropriating $60,000 for a Maryland exhibit at the world's fair.

## CATARRH IN CHILDREN.

For over two years my little girl's life was made miserable by a case of Catarrh. The discharge from the nose was large, constant and very offensive. Her eyes became inflamed, the lids swollen and very painful. After trying various remedies, I gave her S. S. S. The first bottle seemed to aggravate the disease, but the symptoms soon abated, and in a short time she was cured.—Dr. L. B. Ritchey, *Mackey, Ind.*

S. S. S. has a wonderful effect on Children. It is harmless, but powerful to force out the poison.

Again the statesmen of Canada are to try their hands at settling the northern boundary of the Province of Quebec. This is a matter that has been debated and ndisputed eve since the white man first began to preempt the lands of the Indian on the northern confines of this continent. Three years ago a boundary commission was appointed to settle the question, and that suggested that a straight line be run from the head of Lake Temiscamingue northward untill it struck the shore of Hudson or Jomes Bay. There it was proposed to follow eastward the 52d parallel of latitude untill it intersected the boundary of Labrador. Now it is urged that there is a river, the East Maine, running east and west but a few miles north of the 52d parallel, and that that be taken as it would be a natural rather than artificial boundary. That would give Quebec an extra strip of territory about fifteen miles in breadth, but since their recent victory the Conservatives have been so enlarged that extra room is positively called for.

The report that Belgium is to invite all the Powers to a conference for common action against the Anarchists attests the widespread discontent which is so stirring Europe at the present time. Obviously, however, the author of the cablegram from Paris does not use the word "Anarchist" in its literal or current sense. He means, undoubtedly, all Socialists and active protestants against the present order of society. Of Anarchists proper there are not more than 10,000 or 12,000 in all Europe. Events are moving fast in the Old World, and it is a question whether the social or the long heralded military revolution will come first. But whatever the order of appearance, they both will work in unison toward the changing of Continental geography.

### Wheat Quotations for the Day—Price Current for Produce and Other Articles

the recipts of wheat to-day are again quite free. At Minneapolis and Duluth 391,385 bu and from five other points 123,597 bu.

The export clearances yesterday at four Atlantic ports were light in wheat, 99,755 bu and flour to an aggregate of 200,000 bu. Export of corn 389,000 bu, and of oats 10,278 bu.

English markets as reported herein are quiet and steady for wheat and corn.

The Markets To-day.

The wheat markets made a bold stand at the opening to-day, at about 1c advance and for a moment it looked like a cordial invitation to support the markets, but men who had not on a wedding garment, and were not invited to the feast, came in and thrashed the givers of the cotillion out of their boots in half an hour. The advance faded away.

The daily papers on both sides of the ocean, are discussing war with England. Such a contingency in this year, would send prices flying in England, but would depress our markets. The ships of other nations than England and America could only carry wheat across the ocean safely. It would disturb direct intercourse in trading and finances, and England would resort to all other countries for breadstuffs. Perhaps we can do without the seals. To secure the seals and have our cities bombarded would be a poor trade to make. But we must stand by the government, seals or no seals.

Later the market seemed to get away from its enemies and recovered the decline and more, angainst constant and vicious selling by the bears.

Corn has ruled firm and advanced, closing 3-8c to 1-2c better.

Foreign markets do not contribute any new features of note. Liverpool is reported as closing higher.

In New York May and July wheat closed 1 3-8c up. May corn 3-8c and July 1-8c up. May oats 3-8c up.

In Chicago, May wheat closed 1 3-8c and July 1 1-2c higher. May corn 1-2c and July 3-8c. May oats 1-8c higher.

In Toledo, the business in wheat for future delivery has been large, for the season. May was the most active deal and July next, while there was increased trading for August. For August and July there is a fair seaboard demand. There was no interesting feature in the trading. It was buying and selling for a wide extent of country. The closing of the markets was strong and 1 3-8c higher for May; 1 1-4c for July, and 3-4c for August, and the tendency was to a stronger confidence in the markets. On the call May wheat sold at 88 1-2 to 88 1-4 and 88 3-8c. August at 84 3-4@85c, closing at 86 7-8c. After the call May sold at 88 3-8@to 87 7-8c, and advanced and closed at 89 3-8c. July sold at 85 3-8@ 85 1-8c, and closed at 86c. August sold at 85@to84 1-4c, and closed at 85c.

Cash wheat was in better demand than would appear from our record of sales. No. 2 soft in car lots sold at 88 1-2@ 89 1-2c, closing at that, but no wheat of consequence can be bought here, except at prices above May; No. 3 soft at 87c.

Corn—No. 2 at 39c; No. 3 at 38c; No. 3 yellow at 38 1-2c.

Oats—No. 3 at 28c.

Rye—No. 3 at 80@80 1-2c.

Clover seed—Nothing done; lower to sell. An exchange of prime for No. 2 represents more than the market justifies.

## SENT UP FOR LIFE.

### Guiseppe Preiti Takes His Sentence Very Coolly.

New York, arch 25.—Guiseppe Preiti, who killed Antonio Rossa on September 22 last, and who was convicted on Monday in the second degree, was sentenced to life imprisonment. Preiti received his sentence calmly. The tragedy which resulted in Rassa's death took place in Mulberry street, this city.

Rossa owed Preiti a small sum of money. His failure to pay at a certain time angered Preiti, who, in broad daylight, stabbed Rossa in the street.

## AN APPEAL.

Have you a friend in the bondage of Rum? Would you see him saved, free from its powers, once more a man as in other days, a blessing to his friends and the world? Is such a work not worth your best effort? Is your friend with this drink disease fastened upon him, with no power in himself to break the chains, worth saving? If you knew he could be cured, with all this word "cure" implies, and that at the Institute in Toledo, would you make the effort and urge him to take hold of this opportunity to be saved? Will you allow us to convince you and him, that his diseased appetite can be cured? If you will accept evidence unimpeachable, then we bid you and your friend welcome. And by our Double Chloride of Gold Cure we will cause him and his family to bess the day he entered the door of our Institute; for as long as he shall live he shall be free from its power. Thousands are to-day rejoicing everywhere over the restored manhood of fathers, husbands and sons, who by this treatment have come out from under the power of the destroyer. We justly claim your hearty co-operation.

Consultation free and strictly confidential. For terms and particulars, address TOLEDO GOLD CURE INSTITUTE, Hartford Block, Toledo, Ohio.

# TWELVE RESOLVES

## As to How the Patrons of Husbandry

### Stand on Public Questions—Election of Officers—Thanks for Toledoans—A Visit to the Produce Exchange.

The Patrons of Husbandry, who have been in session during the week at the Burnett house, expect to close their labors this evening. The delegates visited the Produce exchange this morning and watched business there for about twenty minutes. They met a number of the members, but the call was entirely informal, and no speeches were made.

At the session last evening the following officers were elected, and were installed this morning:

Supreme president—N. H. Lake, Michigan.

Supreme vice-president—S. S. Jones, Wisconsin.

Supreme secretary—M. H. Smith, Michigan.

Supreme treasurer—M. E. Hogmire, Michigan.

Supreme sentinel—E. A. Metzgar, Indiana.

Supreme trustees—Geo. A. Bennett, Illinois; R. P. Kerrick, Pennsylvania; and P. S. Dorland, New York.

A declaration of principles was adopted as follows:

1. We demand such legislation, state and national, as shall check the advance in financial and political power of all classes of corporations, monopolies and trusts, and restrain and prevent them from further encroaching upon the rights and prosperity of the laboring and producing classes.

2. We demand that all laws creating financial and business corporations shall be so changed as to make stockholders individually responsible for corporate debts.

3. We demand that specific taxes on all corporations be so increased as to compel them to bear their just proportion of taxes compared with individual property.

4. We demand a radical change in national legislation in regard to the public domain. The lands are the property of the people, and should be saved from the grasping hands of syndicates, for the use of actual settlers under the homestead law. The privileges of moneyed corporations, ranchmen and other monopolies should be abridged. All grants to corporations or states not actually earned should be forfeited and returned to the people, and actual settlers should be protected from adverse claimants.

5. We demand such revision of our national revenue laws as will protect the farmers, laborers and producers against the ruinous foreign competition of foreign production and cheap labor. Capital is given preference over producers and laborers. As the working classes form the great bulk of the population all our laws should be framed and administered with this fact in view and to encourage and protect their interests equally, at least with those of the non-producing and non-laboring classes.

6. We demand that the government give no more rebates to any corporation, company or individual of duties which have been imposed upon them the same as duties have been imposed on the public at large.

7. We are opposed to the repeal or reduction of the excise or internal revenue taxes on spirits or tobacco, believing that these articles are not necessary to the public welfare, but injurious to the individual.

8. We are in favor of a graduated income tax law.

9. We are opposed to the action of the United States treasury in aiding the banks on Wall street in a case of momentary money stringency, and neglecting to take any action to relieve the stringency of the agricultural interests for 25 years.

10. We demand the enactment of more stringent laws to prevent the adulteration of foods and prohibit the manufacture and sale of oleomargarine, butterine, bogus lard and similar frauds upon the farmers and consumers.

11. We demand that all public institutions be made self-supporting as near as possible.

12. And finally we recommend that all farmers and laborers unite and work together for the general welfare of themselves and the country, and use their best endeavors to establish uniformity of laws, founded on the principles of truth and justice, with equal rights to all and special privileges to none.

A special resolution thanking the city's committee for the hospitality and courtesy shown yesterday, was passed.

An invitation from the Central Labor union to attend its meeting last evening was declined with thanks. The press of business made it impossible for the members to get away.

## PERSONAL MENTION.

Mr. Joe Fisk will go abroad this summer.

Clarence Brown went to New York today.

F. M. Dotson, of Lima, was here this week.

L. G. Richardson is in Cleveland on business.

Ex-Senator John Ryan was in the city yesterday.

Mr. and Mrs. Napier have returned from Chicago.

United States Marshal Haskell is in the city to-day.

Miss Anna Gossman will be among the April entertainers.

Capt. Joe Brown, of Savannah, Ga., is visiting P. M. Hellfrisch.

Mr. John Logan of Youngstown, called on Toledo friends yesterday.

Mrs. Gen. A. V. Rice and daughter, of Ottawa, O., are in the city to-day.

Mr. T. B. Keating has returned to Mansfield after a short visit with friends here.

Rev. S. D. Conger, who has been very ill, was reported as being worse this morning.

W. E. Cawood will occupy the house on Franklin avenue recently vacated by Capt. McMaken.

Anton Buschen is out and rapidly recovering from the misfortune he had of breaking two ribs.

Mrs. Dr. Kiskadden, who has been Mrs. J. J. Freeman's guest, has returned to her home in Detroit.

Park Wellington Venable, aged 8 years, was sent to the children's home by the infirmary directors this morning.

Mr. and Mrs. R. J. Beatty, Misses Emma Beatty, Mary Loomis and Clara Norton, returned on Wednesday from a two days' visit in Toledo.—Tiffin Advertiser.

The Ladies' Missionary society of the Fifth Presbyterian church attended the anniversary of the Ladies' Society of the Fifth Presbyterian church Wednesday evening in a body.

Alice Mitzger and Mr. C. F. Adams were united in marriage at the bride's home on Nebraska avenue. After a short wedding trip Mr. and Mrs. Adams will go to their new home on Robinwood avenue.

Next Friday evening the Ladies' Aid society of St. John's M. E. church will serve a New England supper from 6 to 8 o'clock and ice cream and cake during the evening. A fine program has also been arranged for the occasion.

In the River News column of the New Orleans Times-Democrat, in the list of passengers on the State of Missouri, which arrived in the Crescent City Tuesday morning last, are the names of Capt. W. G. Alexander and wife, of Toledo. That Mr. and Mrs. A. remember their friends in their pleasant touring is shown by boxes of fragrant orange buds and blossoms which have been received from them.

Mrs. J. J. Freeman entertained the executive committee of the Ladies' Missionary society of the First Baptist church yesterday afternoon from 2 to 6 o'clock, in honor of their president, Mrs. S. E. Turner, who leaves for the east in a few days. The afternoon was an exceedingly pleasant one, enjoyed by the following ladies: Mrs. S. E. Turner, Mrs. W. J. Farrar, Mrs. Geo. Baker, Mrs. Bentley, Mrs. J. Davis, Mrs. M. E. Dutton, Mrs. F. W. Flowers, Mrs. Ed Heffron, Mrs. E. A. Lacy, Mrs. R. H. Lane, Mrs. Dr. Leighton, Mrs. P. C. Lowe, Mrs. C. L. Luce, Mrs. A. B. Mason, Mrs. F. E. McIntyre, Mrs. A. A. Milmine, Mrs. A. W. Myers, Mrs. H. L. Phelps, Mrs. Harvey Platt, Mrs. W. H. Sloan, Mrs. W. W. Tryon, Mrs. A. D. Scammell, and Mrs. Emma Heffron.

# LOW PRESSURE PEOPLE.

## A Most Unfortunate Condition of Life Little Less Than a Living Death.

### The Cause of Many People's Misery Explained.

Volumes have been written about the reasons for so many men and women breaking down. Usually it has been assigned to high pressure living, hysteria and other forms of nervous affliction, of the great desire for social esteem, and in short the overtaxing of the nervous system of which everybody who has lived in the larger cities has seen many examples. It has remained, however, to be shown that these troubles are not necessarily caused by high pressure, not by a high strain, but by no strain, not by intense climate, but by low climate.

Many persons seem to be surly and sullen, to have a spirit of dull and sad resignation, to be almost apparently walking in their sleep, as if they simply existed. The majority of such cases are confined to women. They make faithful wives and mothers, doing their household duties with the patience and resignation of the beasts of the field. Nothing can excite, nothing amuse, but few things interest them. A careful study of conditions, surroundings, symptoms, and manner of living, have disclosed to an eminent physician that these unfortunate persons are not the victims of vicious, sullen or miserable natures, but the victims of a disease as clearly defined as any other disease, a disease of despondency, of bearing down sensations, of blues, of lack of all interest in life, of all enjoyment, of all happiness. It is a collapse of life—life without life. It is a most unfortunate, a most miserable condition.

Men and women who are in this state need, must have, help. They must be aided to an interest in life, a desire for happiness. This cannot be accomplished simply by willing to have it come; there must be some help, some assistance. Will power cannot accomplish it, but it must be something new, some late and remarkable discovery, something that furnishes stimulating food, life to the brain, which makes life worth living. Such a discovery is to be found in Paine's Celery Compound. It has taken thousands of women who were depressed, despondent, tired of life, and made them healthy, happy and joyous. It has taken overworked and broken down men from whom all buoyancy had departed, and made them bright, active, vigorous. It has done this in thousands of cases; it will do it in every case where the instructions accompanying it are carefully followed. Here is what a few who have been rescued say:

"Some time ago I was troubled with heart difficulty and indigestion, and was all run down. I began taking Paine's Celery Compound and can say that it has wrought wonders for me. I heartily recommend it to all sufferers. Yours etc.,
"CHARLES D. WARREN.
"Williston, Va."

"I suffered terribly from nervousness and kidney trouble, had no appetite, and felt weak and tired all the time. Paine's Celery Compound has made me so well that I am cleaning my house (a very large one) without help. I am very grateful to the Compound, for it has given me good health, sound sleep, a fresh complexion, and the absence of doctor's bills.
"Very respectfully yours,
"GRACE THISTLE WATSON."

"For years my mother suffered with nervous troubles. She could not sleep well, her appetite was poor, and she grew weak, thin and melancholy. Physicians did not relieve her, and nothing helped her until she began to use Paine's Celery Compound. That made her strong, strengthened her nerves, and did her a world of good. G. H. BEERS,
"Orbisonia, Pa."

"Life is real; Life is earnest." American people have no excuse for dying of dry rot. Arouse the energies, awaken the ambition, rely upon some grand assistance like the great Compound abovenamed, and you will be surprised to see how much happiness you will secure.

Mr. S. G. Derry
Of Providence, R. I.,

Widely known as proprietor of Derry's Waterproof Harness Oil, tells below of his terrible sufferings from Eczema and his cure by

HOOD'S
Sarsaparilla

"Gentlemen: Fifteen years ago I had an attack of inflammatory rheumatism, which was followed by eczema or salt rheum, breaking out on my right leg. The humor spread all over my legs, back and arms,

*A Foul Mass of Sores,*

swollen and itching terribly, causing intense pain if the skin was broken by scratching, and discharging constantly. It is impossible to describe my suffering in those years of agony and torture. I spent

*Thousands of Dollars*

in futile efforts to get well, and was discouraged and ready to die. At this time I was unable to lie down in bed, had to sit up all the time, and was unable to walk without crutches. I had to hold my arms away from my body, and had to have my arms, back and legs bandaged by my faithful wife twice a day.

"Finally a friend who was visiting at our house, urged me to take Hood's Sarsaparilla. I began by taking half a teaspoonful. My

*Stomach Was All Out of Order*

But the medicine soon corrected this, and in six weeks I could see a change in the condition of the humor which nearly covered my body. It was driven to the surface by the Sarsaparilla, the sores soon healed, and the scales fell off. I was soon able to give up bandages and crutches, and a happy man I was. I had been taking Hood's Sarsaparilla for seven months; and since that time, nearly two years, I have worn no bandages whatever and my legs and arms are sound and well.

*The Delight*

of myself and wife at my recovery it is impossible to tell. To all my business friends in Boston and over the country, I recommend

from personal experience." S. G. DERRY, 45 Bradford street, Providence, R. I.

No Money Required of Responsible Parties to Commence Treatment

DOCTORS FRANCE AND OTTMAN,

Formerly of New York, now the Celebrated Examining Physician of THE FRANCE MEDICAL AND SURGICAL INSTITUTE, Columbus, Ohio, by request of many friends and patients, have decided to visit Toledo

Dr. Ottman, Saturday, March 26.
Dr. France, Wednesday, April 13.

Consultation and Examination Free and Strictly Confidential in the Private Parlor of the Burnett House from 10 a. m. to 9 p. m., one day only.

The Doctor describes the different diseases better than the sick can themselves. It is a wonderful gift for any one to possess. Their diagnostic powers have created wonders throughout the country.

The France Medical and Surgical Institute of Columbus, Ohio, is the only Medical Institute in the State Incorporated with a Capital of $300,000.00.

DR. A. OTTMAN, the Celebrated Examining Surgeon of the

FRANCE MEDICAL AND SURGICAL INSTITUTE,
38 & 40 W. Gay St., one block N. of State House, Columbus, O. Incorporated, 1886. Capital, $300,000.

DRS. FRANCE AND OTTMAN, of New York, the well known and successful Specialists in Chronic Diseases and Diseases of the Eye and Ear, on account of their large practice in Ohio, have established the FRANCE MEDICAL INSTITUTE, where all forms of Chronic, Nervous and Private Diseases will be successfully treated on the most Scientific principles. They are ably assisted by a full corps of eminent Physicians and Surgeons, each one being a well known specialist in his profession

CANCER positively cured without pain or use of the knife, by a new method.

IMPORTANT TO LADIES.—DR. FRANCE, after years of experience, has discovered the greatest cure known for all diseases peculiar to the sex. Female diseases positively cured by the new remedy, OLIVE BLOSSOM. The cure is effected by home treatment. Entirely harmless and easily applied. Consultation Free and Strictly Confidential. Correspondence promptly answered.

YOUNG MEN—Who have become victims of solitary vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, may call with confidence.

DRS. FRANCE AND OTTMAN, after years of experience, have discovered the greatest cure known for weakness in the back and limbs, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, palpitation of the heart, timidity, trembling, dimness of sight, or giddiness, diseases of the head, throat, nose, or skin, affections of the liver, lungs, stomach, or bowels—those terrible disorders arising from the solitary vice of youth—and secret practices, blighting their most radiant hopes or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of hope. Our method of treatment will speedily and permanently cure the most obstinate case, and absolutely restore perfect manhood.

TO MIDDLE-AGED MEN.—There are many from the age of 36 to 60 who are troubled with frequent evacuations of the bladder, often accompanied by a slight burning or smarting sensation, weakening the system in a manner the patient cannot account for. On examination of the urinary deposits, a ropy sediment will be found, or the color will be a thin or milkish hue. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. We will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

DISEASES OF WOMEN.—We have a special department, thoroughly organized, and devoted exclusively to the treatment of diseases of women. Every case consulting our specialists, whether by letter or in person, is given the most careful and considerate attention. Important cases, and we get few which have not suffered the skill of all the home physicians) have the benefit of a full council of skilled specialists. In treatment of diseases peculiar to females, [illegible] has been marked, over two-thirds of our [illegible]ng ladies, old, young, married, single [illegible]r. Our method is entirely free from obje[illegible]e features of the general practitioner, namely, "Local treatment." We seldom find it necessary. We prepare remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.

MARRIAGE.—Married persons, or young men contemplating marriage, aware of physical weakness, loss of procreative powers, impotency, or any other disqualification, speedily restored.

PRIVATE DISEASES.—Blood Poison, Venereal Taint, Gleet, Stricture, Seminal Emissions, Loss of Sexual Power, Weakness of Sexual Organs, Want of Desire in Male or Female, whether from imprudent habits of youth or sexual habits of mature years, or any cause that debilitates the sexual functions, speedily and permanently cured. Consultation free and strictly confidential. Absolute cures guaranteed. Medicines sent free from observation to all parts of the United States.

EPILEPSY, OR FITS—Positively cured by a new and never-failing method. Testimonials furnished.

FREE EXAMINATION OF THE URINE.—Each person applying for medical treatment should send or bring from 2 to 4 ounces of urine (that passed first in the morning preferred), which will receive a careful chemical and microscopical examination, and if requested a written analysis will be given.

Persons ruined in health by unlearned pretenders, who keep trifling with them month after month, giving poisonous and injurious compounds, should apply immediately. Delays are dangerous.

WONDERFUL CURES Perfected in old cases which have been neglected or unskillfully treated. No experiments or failures. Parties treated by mail or express, but where possible, personal consultation is preferred. Curable cases guaranteed. No risks incurred.

Cases and correspondence confidential. Treatment sent C. O. D. to any part of U. S. List of 130 questions free. Address, with postage, DR. FRANCE, Nos.

### THE COMING COUNTRY.

The great Flathead Valley, in Montana, is attracting capital and labor. It is marvelously fertile in soil, has the largest coal veins on the Pacific slope, limitless forests of the finest timber and precious metals. Columbia Falls, the chief town of the region, has immense water power, and offers a good field for manufacturers.
